USED ANTI-TOXINE.
The most recent use of anti-toxine in the case of Capt. Thompson's 10-year-old daughter, excellent results have been obtained from its use and the little girl, although very sick at one time, is now greatly improved. In fact the result of its use has been quite remarkable. It was not used in the case of the first child of Capt. Thompson and the little one died. The house is quarantined, and Capt. Thompson's face is missed around police headquarters.

GRAND TRUNK FREIGHT WRECK.
Hamilton, Ont., April 1.—At an early hour Sunday morning, there was a crash of the Grand Trunk railway near this city. Two of the freight trains were wrecked and three men were seriously, though not fatally wounded. Both trains were thrown off the track and nine cars were destroyed by fire.

ICE OUT OF BLACK RIVER.
Black River Falls, Wis., April 1.—The ice has gone out for a long distance above the falls without any rise in the river and everything indicates now that there will be no spring freshet. The ice has all gone out from here down. It is an unheard of thing for the ice to move without a freshet.

AMUSEMENTS.

OTIS SKINNER.

Tonight the gifted actor, Otis Skinner, will appear at the Lyceum in Clyde Fitch's fine comedy, "His Grace de Grammont." "The Memoirs of Count Grammont," written by his brother-in-law, Anthony Hamilton, is among the gems of the restoration period of English literature. Fitch has found rich material in Hamilton's book and though he has purged his theme of the coarseness and debauchery of the time, he has been able to present excellent portraits of Charles II., Lord Arlington, Lord Jermyn, the notorious Lady Castlemaine, Mrs. Middleton and others whose names are not found here, but in the pages of the "Dairies" of Pepys, Evelyn and other chroniclers of the day. Fitch has somewhat idealized the character of de Grammont in the scenes of the play, his personality partakes of the romance and heroism of D'Artagnan, Dumas' famous guardman.
Mr. Skinner's supporting is a strong one and contains a number of names well and favorably known in this city. It includes Frederick Mosely, R. Poston Carter, Frank L. Sylvester, Wadsworth Harris, J. H. Bradshaw, John Wood, W. Norwood Wadsworth, Mark Fenton, and the Misses Maude Durbin, Sarah Truax, Rose Shuman, Pamela Keith and Maude Merson.

"MAN WITHOUT A COUNTRY."
In the presentation of Cyril Norman's spectacular melodrama, "The Man Without a Country," which will be given at the Lyceum Monday evening, two wonderfully trained horses are utilized. They are pure white thoroughbred Arabians. They are used in the sugar mill scene in the third act in which the villain of the play attempts the life of the little blind heroine by hurling her into the sugar-cane crusher. The scenery represents an old sugar mill on a Louisiana plantation. The colors in the scene are dark and somber. The effect of those milk-white horses against a dark background on a brilliantly light stage is very beautiful. Those horses attract great attention whenever they are seen. The company is said to be a good one.

RUSSELL H. CONWELL.
The lecture by Russell H. Conwell which will be the next attraction in the star lecture course, will be given at the First Methodist church on Monday next. His subject is "Acres of Diamonds," and it tells where to get rich and become great. He delivers nine or ten lectures but this one is the most popular of all and has been delivered more than 175 times. The Springfield Union said of him:
"It is of no use to try to report Conwell's lectures. They are unique. Unlike anything or anyone else. Filled with good sense, brilliant with new suggestions and inspiring always to noble life and deeds, they always please with their wit. The roster of his addresses does not know the full power of the man."

FORTY HOURS' DEVOTION.
The forty hours' devotion opened this morning at St. Anthony's German Catholic church with high mass at 9 o'clock. The devotion will terminate on Monday evening on which occasion Father Charles Koebel, of St. Paul, one of the most distinguished pulpits in the state, will speak. The sermons tonight and tomorrow night will be preached by the Very Rev. Father Gustave O. F. of Superior. Father Klop and Father Weber will assist the pastor during these services. At 10 o'clock every morning there will be high mass by one of the fathers. Services at 7:30 each evening.

The Municipal Court.
John Brooks, Joe De Shano, William Irving, Rorey McGuire and Edward Hendrickson, charged with drunkenness before Judge Edson this morning. Hendrickson begged hard and his sentence was suspended.
John Matsen and Gus Johnson pleaded not guilty to charges of disorderly conduct. Their trials were set for this afternoon and as neither could produce bail they awaited the coming of 2 p. m. in the lockup. Peter Margan, a vagrant, went up for ten days.

The Birth Reports.
The following births were reported at the board of health office today: Andrew and Lizzie Asklen, 241 Fifth avenue east, a son; T. and Mary Stevenson, 1801 East Eighth street, a son; John and Minnie Olger, 105 East Fifth street, a son; Peter and Annie Thompson, 230 West Sixth street, a daughter; Martin and Mary Mickelson, 1032 Garfield avenue, a daughter; Frank and Thilda Olson, 470 1/2 Lake avenue north, a daughter; Elias and Josephine Nelson, 121 St. Croix avenue, a daughter; Christ and Anna Koske, 41 St. Croix avenue, a son; M. and Mary Larson, 18 East Eighth street, a son; Warrid and Hanna Oman, 213 Mesaba avenue, a son; Joseph and Exaline Cayer, 115 St. Croix avenue, a son; Hans and Hannah Stuberud, 92 West First street, a son; Ernest B. and Myra L. Gates, 1801 Lester street, a son; E. A. and Mary Houghton, Palmetto street, a daughter; Robert and Emma Forbes, of Hunter Park, a daughter; Charles and Maria B. Peterson, 1124 Minnesota avenue, a daughter.

JURY DISAGREED.
Nashville, Tenn., April 1.—The jury in the case of M. A. Spurr was today discharged by United States Judge C. D. Clark. The jury stood seven for conviction and five for acquittal. Spurr was tried on a charge of certifying checks falsely as president of the Commercial National bank.

CHANGES.

Improvements in the Deliveries of Mails Here Have Been Made.

Fourth Street Business Section and West End Get Another.

Other Changes Beneficial to Business Men Put Into Effect.

Postmaster Helsinki and Superintendent Grabarkiewicz have been making some sweeping changes in the deliveries in the business sections of the city and all of them for the better. The Fourth business district and the West End section have earlier and one additional deliveries, and the grain men and wholesale houses will find their important mails on their desks nearly an hour earlier than formerly. What the Duluth office is in urgent need of is a brief account of the new arrangements:
7:40 a. m. delivery—Includes all eastern, southern and western mails. It used to be delivered at 7:30.
11 a. m. delivery—Includes the Omaha, Chicago, South Shore and Duluth and Winnipeg mails.
12:20 p. m. delivery—Includes the Ashland and Iron Range mails.
2:20 p. m. delivery—Includes the St. Paul and Duluth and Eastern Minnesota mails.
4:00 p. m. delivery—Includes the Duluth, Missabe and Northern mails.
No changes have been made in the residence districts but the carriers have been shifted around a little.

ST. MARY'S RIVER.
Progress of the Hydrographic Survey Now Being Made.

The hydrographic survey of the St. Mary's river, now in progress, says the Marine Record, is being made in connection with the improvement of the channel twenty and twenty-one feet in depth. Between Chicago, Duluth and Buffalo, its primary object being to develop all shoal places in the river that may now or later require improvement for navigation purposes. Incidentally, the hydrography obtained will be used for the new charts of the river that will shortly be published by the lake survey. For the purpose of the survey, the river from Point Tiquois light house to the upper end of Mud lake, in accordance with various changes in direction of the sailing lines, each area having an axis the length of the survey. In each area lines at right angles to the axis or sailing line are sounded, and a sufficient number of cross sections of the river are thus obtained to develop the bottom thoroughly.

In making this survey the entire force is divided into three parties, distributed over the various sections of the river. One party, consisting of two sounding crews, is under the immediate charge of Inspector L. P. Morrilley, go for Tuesday only.

MEMORIAL DAY SERVICES.
Committees from J. B. Culver, Willis A. Gorman and Rutherford B. Hayes are the joint sponsors of the Memorial day observances. G. N. LaVague acted as chairman and T. McGill as secretary. It was decided to have a public demonstration and to invite the military and civic associations of the city to participate. Chairman LaVague appointed the following committees: Finance, Farrell, Randall and Boyce; transport, Barker and Underman; music and hall, Stenson, Osterhout and LaVague; speeches, Gray, C. F. Johnson and Wadleigh; invitations committee of the whole; grounds, Irvine, McGill and Stenson. Another meeting will be held April 12 when invitations from the different churches for holding the services will be considered.
Series of Cock Fights.
A large party of Duluth and West Duluth sports turned out Saturday night and gathered about a crowded cock pit there to witness a series of spirited fights between Duluth and West Duluth cocks. At 9:30 the first pair were let loose at each other. The fight lasted four minutes but the Duluth bird was dead and the West Duluth champion chimed in a triumphant note with the cheers of the West Duluth sports.
The next fight was longer, but the result was the same. The West Duluth bird won. The third fight was fully twenty minutes in length and was won by the Duluth bird. The last fight was won easily by the Duluth cock in six minutes.

RESIGNS

Rev. George Keithly to Retire From Westminster Presbyterian Pulpit.

Representative Cant Wants Expressions on West Duluth Court Matter.

Arrangements for the Wrestling Match Were Completed This Morning.

Rev. George E. Keithly has resigned as pastor of Westminster church. Mr. Keithly retires to accept a mission field in Eastern Turkey and he expects to leave for his chosen work early in the fall. His duties to leave West Duluth as soon as the presbytery will be enabled to dissolve his pastoral relations with the church. Mr. Keithly has been here only a short time, but the church has made marked advancement under his pastorate, and he has endeavored to himself a large Christian family, the members of which will be loath to witness his departure.

WANTS THE WRISTLING MATCH. A number of prominent West Duluth citizens received a letter from Representative Cant yesterday reading as follows: "I am writing you in regard to the question of abolishing court at House of Representatives, St. Paul. First, stating your personal views on the question of abolishing court at West Duluth. Second, informing me of the sentiment on that question in West Duluth, irrespective of your own views."

THE WRISTLING MATCH. Arrangements were completed this morning for the wrestling match between Jack Curtis and Pat McHugh to take place at Great Eastern hall on Saturday evening. McHugh is best Curtis three times in an hour.

There will also be set-tees and several wrestling bouts between local sports as follows: "Bobby" Morrison and "Archie" Ferguson, George Phalen and the "Minnesota" children, Ben Marano and Chris Habberstad, St. White and George Curtis. The admission will be 50 cents to all parts of the house.

WEST DULUTH BRIEFS. Peter Gulbranson, the father of John Gulbranson, the contractor, died on Friday last at the ripe age of 70.

The deceased was one of the oldest settlers in this part of the country. He leaves several children. The funeral took place this afternoon at the residence of his son Andrew, at Hermantown.

The funeral of Mrs. John Eklund took place this morning. The deceased was a native of Sweden and had been married to John Eklund for many years. She was a devoted wife and mother and was well known in the community.

New Brokerage Office. G. E. Clark, of Minneapolis, has leased the rooms in the Chamber of Commerce building formerly occupied by C. H. Spencer & Co., and beginning tomorrow will conduct a brokerage office where all stock and grain quotations and the latest gossip will be received direct from New York and Chicago. Mr. Clark will deal off the board, and all deals will be closed in that manner.

A PECULIAR FAD. The Hiss case has created a craze for the dagger to the murderer, who is said to have been a victim of a peculiar fad. The craze is said to have originated in the case of the late John Dillinger, who was killed by a single bullet to the heart.

WHEAT STILL LOWER.

There Was Not Much Business in Wheat Today.

Trading did not reach very large proportions on the Duluth board of trade today. It was the board's last day in its old quarters, and the time was devoted largely to having a good time. The outside news was bearish and prices declined at the opening, rallied a little and then held steady. May opened at 95c and sold up to 96c, and July advanced from 95c. There was small business in cash stuff, the market being only about even for cash. The close was lower for May and July for July and September. Following were the closing prices: No. 1 hard cash, 95c; April, 95c; May, 95c; July, 95c; September, 95c; No. 1 northern cash, 95c; No. 2, 95c; No. 3, 95c; No. 4, 95c; No. 5, 95c; No. 6, 95c; No. 7, 95c; No. 8, 95c; No. 9, 95c; No. 10, 95c; No. 11, 95c; No. 12, 95c; No. 13, 95c; No. 14, 95c; No. 15, 95c; No. 16, 95c; No. 17, 95c; No. 18, 95c; No. 19, 95c; No. 20, 95c; No. 21, 95c; No. 22, 95c; No. 23, 95c; No. 24, 95c; No. 25, 95c; No. 26, 95c; No. 27, 95c; No. 28, 95c; No. 29, 95c; No. 30, 95c; No. 31, 95c; No. 32, 95c; No. 33, 95c; No. 34, 95c; No. 35, 95c; No. 36, 95c; No. 37, 95c; No. 38, 95c; No. 39, 95c; No. 40, 95c; No. 41, 95c; No. 42, 95c; No. 43, 95c; No. 44, 95c; No. 45, 95c; No. 46, 95c; No. 47, 95c; No. 48, 95c; No. 49, 95c; No. 50, 95c; No. 51, 95c; No. 52, 95c; No. 53, 95c; No. 54, 95c; No. 55, 95c; No. 56, 95c; No. 57, 95c; No. 58, 95c; No. 59, 95c; No. 60, 95c; No. 61, 95c; No. 62, 95c; No. 63, 95c; No. 64, 95c; No. 65, 95c; No. 66, 95c; No. 67, 95c; No. 68, 95c; No. 69, 95c; No. 70, 95c; No. 71, 95c; No. 72, 95c; No. 73, 95c; No. 74, 95c; No. 75, 95c; No. 76, 95c; No. 77, 95c; No. 78, 95c; No. 79, 95c; No. 80, 95c; No. 81, 95c; No. 82, 95c; No. 83, 95c; No. 84, 95c; No. 85, 95c; No. 86, 95c; No. 87, 95c; No. 88, 95c; No. 89, 95c; No. 90, 95c; No. 91, 95c; No. 92, 95c; No. 93, 95c; No. 94, 95c; No. 95, 95c; No. 96, 95c; No. 97, 95c; No. 98, 95c; No. 99, 95c; No. 100, 95c.

The Day Approaches!

Thursday Next And Friday and Saturday.

Grand Spring Millinery Opening Days Here!

Unusual anticipation and manifest expectations growing visibly prevalent as the great day speedily approaches.

The Hat and Bonnet

There is no prelude to a season's happenings of such vast importance as the Opening display of Millinery.

It Requires An Artist

To create a stylish hat; about one in a hundred attempting to create hats, are even worthy the tribute of amateur. How often you hear the remark "she's not particularly handsome but my, how stylish and graceful she is!" If you should inquire you would learn that an artist planned the symmetry, grace and style in her hats and gowns. Mistakes, half mistakes, three-quarter mistakes are prevalent in most hats—too much color, not enough color, too much lace, not enough lace, too fussy, not fussy enough, too loud and too tame, etc. We have a millinery organization second to none anywhere, which fact we think you will admit after careful investigation, if you have visited any of the Eastern Cities. Our extensive collections of French Pattern Hats and Bonnets you will find represented in the col-

umns of the foremost fashion journals of the world. Our extensive lines of flowers, novelties, laces, ornaments, and ribbons you will recognize at once as those demanded by fashion's present modes.

You'll Find the Prices Low:

There are some who imagine it costs more to get a hat from such a superior source. Not so! In fact the prices are far less than is asked for indifferent styles elsewhere.

Be Cautious

And observing and investigate this Spring Hat question thoroughly. Every endeavor will be made in our Millinery Department to put you in knowledge of every interesting point, every inducement will be put forward to convince you of our earnest determination to take an interest in the way you look. Why should you object?

Where Is He Going?

Gentle reader, he is hurrying home. And his house-cleaning time, too—think of that! Fifteen years ago, he wouldn't have done it, just at this time, he'd be "talking to the woods." But now, things are different. His house is cleaned with Pearline. That makes house-cleaning easy. Easy for those who do it—easy for those who have it done. No hard work, no wear and tear, no turmoil and confusion, no time wasted, no tired women, no homeless men. Everything's done smoothly, quickly, quietly, and easily. Try it and see.

Send Dollars and some unscrupulous rogues will tell you "this is as good as the real thing as Pearline." IT'S FALSE!—Pearline is never peddled, and if you grow weary of something in place of Pearline, do the honest thing—send it back.

THE SUPERIOR ELECTION.

Warm Contest is On in the City Across the Bay.

Superior is going through a red-hot election today. For weeks the campaign has been at fever heat, with mass meetings and speeches at all hours. The principal interest is centered on the majority contest. A full set of city officials is being elected, but there is little contest of anything but the mayor's chair. This is contested for by James H. Aiken, the Republican candidate, and Rev. C. S. Starkweather, nominated by the Democrats and Populists.

Agen has the support of all the papers and of the Republican party, which is supposed to have the strongest organization, but Starkweather, backed by the unionists and, strange to say, the league, is giving him the hard run.

The result of the count is expected to be given by the hard run. There is a good deal of interest manifested and each is asserting the election of their candidate for mayor.

PERSONAL.

E. H. Burger of the First National bank, has been called to Brooklyn by the serious illness of his mother.

David Abel, clerk of the city engineer's office went home yesterday with an attack of the grippe and today he is confined to his house.

Among the attorneys who went to St. Paul last night to be present at the opening of the supreme court were W. N. Draper, John Rustgard, A. E. McManus, Page Morris and P. C. Schmidt.

Arthur Little will leave for Minneapolis tonight to join the "Alabama" company as treasurer. The company will go westward and as far as Sitka, Alaska.

Damage Suits Against the Realty Company Adjusted.

It will be remembered that some time ago the relations of Helen Polson, a servant girl who perished in the Hotel St. Louis fire in January, 1893, sued the Realty company of Maine, for damages and the suit was dropped. Yesterday a new suit was begun against the company, also one by the administrator of the estate of Henry Joseph Beaudry, a railroad man, who was burned in the same fire. They allege that proper provision was made for the fire and that the company against fire was not taken. With the complaints were filed dismissals showing that the suits had been settled.

CITIES WILL CONSOLIDATE.

Green Bay, Wis., April 2.—Green Bay and Port Howard voted today on a consolidation of the two cities and a consolidated city and county.

CITY BRIEFS.

Officer Gentry, top floor, Tallahassee, Fla., has been elected to the position of chief of police. W. A. Foster, of the Duluth hotel, has been elected to the position of chief of police. The hearing was set for Wednesday evening and in default of \$300 bail, the defendant was committed to the county jail until that time.

The Duluth camp "Order of the Wood" meets in regular session at the Hayes block hall this evening. George H. Laybourne and E. H. Chisholm today closed the sale of the improved property, corner of Eighth and Second streets, for \$200.

The Civil Federation club will hold a meeting on Wednesday evening at 8 o'clock in the Pilgrim Congregational church. Dr. Stewart will speak upon "The Health of Our City."

RESOLUTIONS OF SYMPATHY.
 The following resolutions of sympathy have been adopted by the Duluth street railway employees:
 Whereas, the heart and home of our worthy brother, George E. Ball are left desolate by the sudden death of his estimable wife;
 Resolved that we extend to him and to the immediate family of the deceased our heartfelt sympathy in their great bereavement, and commend them to the loving kindness of Him who has promised to comfort those that mourn.

Resolved, that these resolutions be furnished for publication, entered upon our records, and presented to our afflicted brother.

HIS OATH

W. B. Welles Expected to Assume His Office This Afternoon.

City Engineer to be Chosen Before the Week is Out.

Mayor Lewis Says John P. Johannsen Wanted an Office.

William B. Welles, who was confirmed by the council last evening as Capt. Farrell's successor on the board of public works, took his oath of office this morning and then went out to secure bonds in the sum of \$500. He expected to take his seat as a member of the board this afternoon.

The board will be organized at once, the office being held until the city engineer is appointed for the ensuing year. Dr. A. Reed is a candidate to succeed himself, and neither M. R. Lewis nor W. B. Patton would refuse an invitation to step into Mr. Reed's shoes.

President Davis said this morning that no rush would be made to select a street commissioner to fill the vacancy made by McLaughlin's resignation. The foreman is now attending to the duties of the office, and doing so well that the board doesn't care whether it finds a commissioner for a month or two.

HAS AN INTEREST.
 Mr. Johannsen Wanted to be City License Collector.

Mayor Lewis, who, of course, always reads The Herald, saw last evening the letter of John P. Johannsen concerning the five "milk dealers" in Duluth that may no city license. This morning Mayor Lewis told a Herald reporter that he thought Mr. Johannsen's letter a little misleading, yet, as the city attorney is out of the city and has not passed on the point as to whether these outside firms that have local agencies here and sell in wholesale lots are liable to that license of \$100 a year. Given over that, the city attorney declared that he might be dodged by making some local agent appear, or by making sales and doing business through some local dealer.

Mr. Johannsen, when he called on Mayor Lewis, gave him honor to understand that if he showed a way in which the city could make \$500, he would like to act as license collector. Mayor Lewis also is in receipt of a letter from the mayor of Minneapolis inquiring who Mr. Johannsen is, so it may be inferred that that gentleman also wants to be license collector in Minneapolis.

POINT IN PRACTICE.
 Ruling of Judge Nelson of Interest to Attorneys.

In the matter of the demurrer, the defendant in the case of H. B. Moore vs. the First National bank of Chicago, Judge Nelson, who is back from his California trip, has overruled the demurrer and, in accordance with the practice in that court, the plaintiff will be required to re-plead. Judge Nelson further expresses himself in the following words, which, undoubtedly, will be of interest to many attorneys:

"This case comes here upon removal from the state district court. Upon examination of the complaint, it appears that a demand for equitable and legal relief is joined in the same action. This practice is proper in the district courts of this state, but when the case comes to the federal court, where a distinction is made between actions at law and suits in equity, it is necessary that the pleading be drawn with a complaint on the law side to enforce the legal rights and a bill in equity to enforce the equitable proceedings.

In the case of Emil Hartman vs. James H. Warren et al, now pending in the state district court, defendant, Frank R. Weber has demurred to the bill of complaint saying that it is not a bill, but a complaint, and that the plaintiff is not entitled to the relief prayed for in the bill against the defendant.

Nothing Demonstrated.

Dr. Maxwell says the article in The Herald regarding the use of anti-toxine on the daughter of Capt. Thompson is incorrect. He says:

"In the first place Capt. Thompson's daughter has not had diphtheria at all. The first case was that of his 6-year-old daughter who died and now his 4-year-old daughter is afflicted, but is apparently recovering. The first child had been sick a number of days before the physician was called. Anti-toxine was used freely, but the disease was too far advanced to sustain and support the vital powers and it died thirty-six hours from the time of the first visit of the physician. Anti-toxine was used early in the case of the second child, but one swallow does not make summer and as I have had many cases apparently as severe as this in which the patients recovered just as nicely from the same treatment that this child has had, on the use of anti-toxine. Therefore nothing positive is demonstrated by these cases as to the value of this new remedy."

Clerk Tischart Resigns.

This morning J. H. Tischart, who has been clerk of the criminal department of the municipal court for five years, tendered his resignation to Judge Edwards to take effect on April 10. After Mr. Tischart's duties end in his present position, he will go to Chicago and enter the service of a prominent theatrical institution in that city and, after several months' service there, he will then return to Duluth as the local representative of that firm.

Mr. Tischart was first appointed by Judge Morris in 1890. In 1892, he was retained by Judge Powell. He has been a most competent, obliging and satisfactory clerk.

"I wish through the columns of The Herald," said Mr. Tischart, a reporter this morning, "to thank all the judges, fellow clerks, attorneys, and the general public as well, for the consideration shown me during my five years of service. I am glad, too, that circumstances will permit me to make my permanent home in Duluth."

Kept Open on Sunday.

In police court this morning Alex Steele pleaded guilty to the charge of keeping his saloon on West Superior street open Sunday. He paid the \$25.00 customary charge for that privilege.

John Matson and Gustav Graundland pleaded guilty to charges of drunkenness and went to the county jail for ten days each.

King ordered similar pleas to similar charges and were made happy with a declaration that he had not been drunk so time was set apart this afternoon to listen to the matter and render a decision.

THE PUBLIC SCHOOLS.

High School Shows a Large Increase in Enrollment.

The public schools opened yesterday for the spring term after the usual ten days' recess. The attendance was good and in the high school three new pupils were enrolled, bringing the registration up to 485. While several are sick, none in attendance last term dropped out, so the new enrollments are an actual increase.

The Athletic association held a meeting yesterday afternoon, heard reports from the delegates to Minneapolis and decided to hold joint field day exercises this year with the Y. M. C. A. Athletic association.

Charles Hutchinson, principal of the manual training department, is still quite ill with the grippe. Miss Louise Hollister has been confined to her room for a couple of weeks and is not yet able to take charge of her high school classes. W. J. Barnes, lately principal at Mountain Home, has taken charge of the school at Mountain Home, and as a result of an affection of the eyes may be unable to resume her work in the English school this spring.

New Water Basin.

Workmen are today making an excavation for the foundation for a foundation and water basin at the intersection of London road and Superior street. The structure will be of iron, quite handsome and will cost \$200. Later on a figure of water bearer, nymph, or something, will be added but at the present time there is no appropriation for that purpose. A cut stone basin will support the large water basin. The edge of the basin will be four and one-half feet above the street level, high enough to enable the London road speeders to drink without being unchoked.

Tug Figures Wanted.

The majority report in favor of a steam ferry across the ship canal was hung up in the aldermanic committee meeting yesterday afternoon. This time the matter will sleep for two weeks for the purpose of enabling the American Stevedore Barge works at West Superior to figure on plans and cost of a combined steam ferry and tug.

REFORMS

Commissioner Roosevelt, of the Civil Service Advances Some New Views.

Would Include Many More Offices Under Operations of Rules.

Whole Postal Service Should Be Taken Entirely Out of Politics.

WASHINGTON, April 3.—Civil Service Commissioner Roosevelt is thoroughly committed to the doctrine of including many more offices under the civil service laws. Speaking on this subject he said:

"A house divided against itself, has got to fall, and in the end this government, so far as the non-political offices are concerned, must be administered fairly to both parties and I am perfectly certain that merit will be the basis on which all offices will ultimately be administered. We have got to have civil service reform, not only in the nation but in the state and municipality, and we have got to have it not only in those offices to which it now applies in the nation, but to very many other offices that are not properly political in character."

"Our people have for seventy years been educated to regard the spoils system as part of the natural order of things so that they are wholly incapable of understanding, as yet, that a postmaster, for instance, has nothing whatever to do with politics if he attends to his duty, and that there is no more need of filling the fourth class postoffices with people who sympathize with the views of the administration for the time being on questions of the tariff and currency, than there would be sense in having the express or the telegraph business of the country administered by men who are protectionists or free traders, acting as one party or the other triumphs at the election."

"Every civilized country in Europe refuses to treat postoffices as political spoils and it may be of interest to those who rail against the reform, because in England there is also civil service reform, to know that in England the reform only came in with the growth of the democratic spirit and that the reform has reached its most perfect manifestation in the federal republic of Switzerland. The latter country is governed by the people for the people, and no public servant whose duties are non-political is ever appointed or turned out for political reasons."

"In England, postmasters are appointed by a promotion from within the ranks, except in the lowest grade where they are appointed directly from the outside. They are never removed for political reasons."

"In our country it would perhaps be difficult to allow of a system of transfer from office to office throughout the nation at large, but such transfers could be certainly made within the borders of a state, and the promotions in the big cities, at the largest offices should be appointed (whenever a vacancy occurs) from within the ranks of the postal service of that state."

"If you wish an illustration of the fact that the service rendered by a postmaster has nothing to do with his politics let me refer you to Postmaster Zumstein of Cincinnati, who has just been supplanted by Postmaster Brown, himself four years ago supplanted by Postmaster Riley. Mr. Zumstein was a Republican for over four years he has served under the Democratic postmaster general, Mr. Bissell. All through Mr. Bissell's term of service, Mr. Zumstein has been postmaster of Cincinnati and nobody would

ABSOLUTELY PURE

know, from any result visible in the operation of the postal service, that Postmaster Zumstein was of one political party or another. He has given during this time, precisely as good service as Postmaster Sullivan, of Brooklyn, or Postmaster Fleming at Chicago, both of them Democrats.

"The letters have been distributed just as well in Cincinnati under the Republican postmaster as in Brooklyn or Chicago under the Democratic administration, and so far as the letters are concerned, they are as good as those of the Republican postmaster at Cincinnati, Mr. Riley, during the Republican administration of the government as they are those of the Democratic postmaster at Chicago or Boston. The people have been as well satisfied by one administration of the office as by the other."

"As a matter of fact ninety-nine out of every one hundred of them have not known and have not cared a rap what the views of the postmaster were as to the annexation of Hawaii or the Nicaragua canal so long as their letters were delivered speedily and without blunder. In Charleston, S. C., the Democratic postmaster was continued under Mr. Cleveland's first term and neither caused a single individual complaint, outside of the class of professional politicians who wanted a job for their henchmen."

"It is just as absurd to turn out a letter carrier because he voted the wrong ticket as it would be to refuse goods delivered by an expressman who is out of sympathy with the dominant party to say that you would not give your message to a telegraph clerk who did not think just as you did on the tariff question. The present railway mail service, for instance, is exactly the same hands and is being administered precisely as it was three years ago. Under Harrison, Democrats and Republicans went into the postal service alike and as a matter of fact are now equally represented in it."

"A curious result of the present service is that the nominal head of the office is of no consequence whatever in the administration of the office. In a great many postoffices throughout the country all the work is done by the assistant postmaster who is permanently retained. He could do his work quite as well if there were no postmaster."

"The democratic people of this country are greatly interested in political questions and they are also greatly interested in such non-political questions as the honesty and efficiency of their public servants, but they are not interested in seeing a lot of small politicians get office."

"The question of the tariff, the question of the currency, the question of foreign relations are all of immense concern to all Americans who have America at heart. But these questions are fixed by the action of the people's representatives in congress, in the president and the cabinet. There will be no need of changing more than a hundred officials to make a complete radical revision in the tariff or financial policy of the government. Almost all government employees prefer duties more ministerial in character. The enormous majority of them do not have to deal with political questions at all. They are doing the duties of their office by an average employee of a business firm or corporation and the concern of the public in their work is limited to seeing that work done faithfully and intelligently."

"I want to see that civil service system become universal in the first place because the offices of public servants, politics and the service would be improved if they were, but in the second place and chiefly because I wish to take out of politics the duties of the postmaster, degrading influence of the spoils system. It has been on the whole the most fruitful of the causes which tend to the degradation of American politics and in no way can we so strengthen the forces which tend to the elevation of our political life as to utterly destroy the spoils system."

ON THE INCREASE.

Large Amount of Development Work at Rainy Lake.

Steeling S. Smith has just returned from the Rainy Lake country and says the amount of development work in progress is now very large and increasing. As many as thirty or forty shafts are now being sunk between Rainy Lake City and Sturgeon Falls, a distance of fifty miles. The older properties like the Wiegand and Hillier are showing up magnificently. One blast made on the Wiegand property shows free gold in almost every place of rock which is picked up. The Hillier vein is equally rich and almost every piece of rock shows free gold. The Hillier stamp mill is completed and will start up this week.

There is a greater feeling of confidence in the country than ever before as to the amount and value of the veins. The shaft on the Hillier property is down fifty-two feet and shows rich ore all the way.

On the way down, Mr. Smith met twenty teams going into Rainy Lake country. There are three new towns under way. Gold Center, Seine River City and Wiegand. New discoveries are being reported every day and many wealthy Duluth men are getting interests in properties. For a 40-acre tract adjoining the Wiegand property the owner asks \$50,000.

INCOME TAX RETURNS.

Government Officials Pleased With Prompt Responses.

WASHINGTON, April 3.—The income tax returns are coming in far beyond the expectations of the officials. To save time and avoid complications the collectors were instructed to classify and send the returns on the 10th of each month and therefore no reports have been received of a date later than March 10. Nevertheless as many as 10,000 returns have already been received and are now being verified and are being rechecked.

It is estimated that the returns made to the collectors prior to March 10 represent at least \$150,000,000 income tax, and that the actual amount returned to April 1, will aggregate \$15,000,000. It was not expected returns to any considerable number would be made before April 8 or 10, five days before the time limit expires and hence the showing so far made is exceedingly gratifying to those having the matter in charge.

Another matter of congratulation is that little difficulty is being experienced by taxpayers in filling out the blanks. So far little or no difficulty has been encountered, and all things considered, the work of collecting the tax is going forward with very little friction. It is expected that at least \$50,000,000 income tax will have been collected by June 1, the close of the fiscal year.

The officials do not express any doubts that the supreme court will sustain all of the important features of the law if not the entire act as it stands and are pushing the work as rapidly as is consistent with accuracy.

JACKSON'S SCHEME.

Worked the Chain Letter Swindle Very Successfully.

VANCOUVER, B. C., April 3.—Another "chain" swindle has just been unearthed here. A young man, named Al Jackson, living in South Vancouver, a suburb of this city, sent a number of circulars to persons in Eastern Canada asking them to send him to cents to assist in building a church and to continue the chain by writing two similar letters to other persons. Jackson described himself as secretary of the "Lawdale Relief Association" and set forth that the people in that settlement were very poor, their property having been damaged by the recent Fraser river floods.

One of the circulars was sent to Rev. Thompson, a Methodist minister in the neighborhood and he handed the matter to the police. They visited Lawdale and found it to be a boom town site, in the bush, the town consisting of two shacks, one occupied by Jackson and the other by a Chinaman.

Jackson confessed to having been the author of the letter and having obtained money from the citizens of the town. He said he had received a heavy mail for some time past and a large number of persons are believed to have been victimized.

CAPSIZED.

Passenger Steamer Overturned by Stormy Weather on Puget Sound.

Several of the Passengers and Some of the Officers Drowned.

Life Boats Were Covered with Water and Were Useless.

NEW WHATCOM, Wash., April 3.—The steamer Buckeye, plying between this city and Friday harbor, capsized in Beltingham Bay, south of Eliza Island yesterday. The steamer left Anacortes at 2:30 heavily loaded with live stock and hay. A heavy sea and wind carried her to one side.

At 3 o'clock a heavy wave burst in over the cabin of the steamer and overboard. The passengers were W. J. Jenkins, W. L. Asher, W. H. Bennett, and New Whatcom, H. Katzman and wife, of Anacortes. All the passengers climbed onto the window but Katzman, being a large man, was unable to get out of the cabin, must have been drowned.

The captain and four of the crew and all of the passengers, but Katzman, got into a small boat, but Bennett and Asher and the first officer got onto a life raft which they tied to the steamer. The small boat after an hour's hard work reached the shore five miles below Fairhaven. The captain secured a horse and rode to Fairhaven for a steamer to rescue those on the raft. As soon as the assistance but there is no news of her yet.

The steamer J. E. Boyden went to their assistance but there is no news of her yet. The two large life boats on the Buckeye were tied and the crew were unable to untie them as they were partly covered with water; they had only the small boat.

A heavy wind was blowing and from the condition of the survivors it is possible that others perished before assistance could reach them.

M'GRUER ELECTED.

Citizens' Ticket Generally Victorious in Virginia.

Virginia, April 3.—The election yesterday resulted in a complete victory for the citizens' ticket, by majorities ranging from three to 200. McGruer, of the citizens' ticket, defeated Bates, the Republican candidate, by a vote of 1,000 to 800. McGruer is the son of the late Governor McGruer, who was elected, but he is immensely popular with all classes. The council will be elected on the 11th inst.

Party lines were not drawn in the election as, prior to the Republican convention, many leading citizens, most of whom were Republicans, were pledged to the citizens' movement.

An Obstinate, Chronic Disease that Yielded to the Copeland System of Treatment in One Month.

There is no need of anyone suffering for years with catarrh of the stomach when a brief treatment at the Copeland Medical Institute will effect a cure.

The Herald has, during the past three years, told a story of a man who suffered greatly with catarrh of the stomach and head.

"I was troubled with pains lack of the eyes and head," said Mrs. Starkey, who resided at No. 1816 Sixth Avenue west in this city. For three years she suffered greatly with catarrh of the stomach and head.

ALASKA

Harry Marks Has Returned From a Visit to That Country.

Mineral Wealth is Great, But Syndicates Have Obtained Control.

Young Ladies Who Will Drill Had a Rehearsal Last Evening.

Harry Marks, a former resident of West Duluth, and an employee at the car works, is back again, visiting old friends. Mr. Marks has had a varied experience since he left here having traveled as far north as Alaska. He spent some time in Uncle Sam's northern dominions and traveled over a large extent of territory. He went down through great gulches and is not only one of the longest but one of the deepest rivers in the world. He says that there are great stores of mineral wealth in Alaska but possession of it has been acquired by syndicates and that there is but small chance for a poor man to reap any benefits from the mines.

Most of the country is a cold, barren region and in certain portions one can travel hundreds of miles without seeing a single tree. In the southern part, along the coast, however, some agriculture is carried on and one meets a good many people. He says he would not advise any West Duluth people to migrate to Alaska for the present, least, he thinks West Duluth and Duluth at large has made wonderful progress since his absence.

YOUNG LADIES' DRILL.
The company of young ladies who are going to compete in the drill next Tuesday evening held the first rehearsal at the Eastern hall last evening. They put up a fine marching drill but were a little weak on the manual of arms. They expect to do some excellent things the next few days, however, and will give the boys a hard fight for the prize.

After the ladies had finished the young men took the platform and put up a drill especially in the manual which delighted several military men who were present.

Shortest Term of Court on Record in Carlton County.

Judge Ensign and Court Stenographer Judd Stearns were at Carlton yesterday and held the shortest term of court Carlton county ever had. It was all cleared up yesterday. There were no civil cases, and the grand jury brought in but two minor indictments. One of the prisoners pleaded guilty and the case of the others was continued. David E. Scott, Charles Marks and William R. Mayer were appointed commissioners in the Carlton county condemnation proceedings of the Minnesota Canal company. This is the second set of commissioners appointed in Carlton county in the Minnesota Canal company's proceedings. The first set went out April 2, to look over the ground preparatory to making the awards. The set appointed in St. Louis county will look over the ground April 11.

MRS. MURRAY'S EXECUTION.
Is singularly brilliant, her tone full and clear, while the spirit of her performance is that of the true musician, says the Musical Courier, of New York, an authority without question.

The above noted harpist appears at the Lyceum on Wednesday, April 10, with Mrs. Scott Siddons.

THE VERY THING FOR CHILDREN

Pleasant Pellets.

They're so tiny, so easily taken, so easy and natural in the way they

torney and hold the shortest term of court Carlton county ever had. It was all cleared up yesterday. There were no civil cases, and the grand jury brought in but two minor indictments. One of the prisoners pleaded guilty and the case of the others was continued. David E. Scott, Charles Marks and William R. Mayer were appointed commissioners in the Carlton county condemnation proceedings of the Minnesota Canal company. This is the second set of commissioners appointed in Carlton county in the Minnesota Canal company's proceedings. The first set went out April 2, to look over the ground preparatory to making the awards. The set appointed in St. Louis county will look over the ground April 11.

When you feel "a touch of biliousness" or indigestion, take one of these little Pellets. They go right to the spot.

They also cure the most permanent constipation, Sour Stomach, Dizziness, Sick or Bilious Headaches, and every derangement of the liver, stomach, and bowels.

Admired sugar does Dr. Sage's Catarrh Remedy cure you the very worst cases of chronic Catarrh. You can judge of the chances of it from the makers' offer. They guarantee it in every case.

WHEAT SLIGHTLY LOWER.

Big Business in Both Futures and Cash Stuff.

The opening session of the Duluth board in its new building was marked by quite an extensive business in wheat. The trading was of pretty large proportions, both in cash stuff and futures. Wheat opened for lower, but reacted and became steady, under the influence of firm cables, large clearances and light Northwest corn receipts. A decline started about noon on Bradstreet's report, which was of a bearish nature. May opened at 60c, sold up to 61c, and declined to 60c, selling at 60c and before the close, July opened at 61c, advanced to 61c and declined again to 60c, the opening figures. There was good trading in cash stuff, the mills taking out 7,000 bus. No. 1 hard at 5c over the May contract price. They also bought some No. 1 northern at 4c over May and some low grades by sample. The elevator offered for over May, but got only a few car lots. The close was 1c higher than yesterday for cash, 1c lower for May and September and 1c lower for July. Following were the closing prices:

No. 1 hard cash 60c, April 60c, May 60c, April 60c, May 60c, September 60c, No. 2 northern cash 59c, No. 2, 60c, Rejected, 59c, To arrive, No. 1 hard 61c, No. 1 northern 60c, No. 2, 59c, Rejected, 58c, No. 2 oats, 58c, barley, 48c.

Car loading today—Wheat 57, oats 2, rye 2, barley 1, Receipts—Wheat 33,200 bus, oats 180 bus, rye 175 bus, Shipments—Wheat 92 bus.

DULUTH'S BOARD OF TRADE.
 The members of the Duluth Board of
 Trade held their first session in their
 handsome new building today. There
 were no formalities connected with the
 event, but the board began its business
 this morning as quietly as if it had
 been occupying the same quarters for
 years. Duluth has good reason to feel
 proud of the board's new building. It
 is beyond all doubt the handsomest
 structure in the city and no board of
 trade in the country has better accom-
 modations for its business.

The enterprise of the board in erecting
 such a magnificent building is
 to the highest praise, and yet it was
 demanded by the necessities of the in-
 creasing business of the city.

Before the burning of the old building
 this step was in contemplation, and
 when the old building was suddenly
 wiped out by fire a year ago the erec-
 tion of the palatial structure which to-
 day became the home of the board was
 the growth of the city.

It is but a few years since a few
 courageous and far-seeing men brought
 it into existence and struggled to keep
 it on its feet. Today it stands among
 the leading boards of the country and
 its quotations are published through-
 out the world.

Publicly no single institution in Du-
 luth has done more to advertise this
 city abroad. The grain trade of Du-
 luth was the primal industry, as it
 is here, of the city. It gave Duluth its
 first extensive business that attracted
 the attention of capitalists and invest-
 ors everywhere. It first demonstrated
 the unequalled geographical location of
 the city in its relation to the great
 Northwest.

The immense elevators, and to-
 day the control of the Duluth board
 of trade were soon handling yearly mil-
 lions of bushels of the finest wheat on
 earth. Duluth No. 1 hard wheat be-
 came known as the king of all wheat.

It retains that position, and to-
 day in the Duluth elevators there is
 the largest stock of No. 1 hard wheat
 that can be found anywhere in Ameri-
 ca. In this particular all other wheat
 centers bow to Duluth. It is true that
 wheat values are low at the present
 time, but of what product of the soil
 or manufactured article is it not also
 true? With returning prosperity
 throughout the world, the price of
 wheat will rise. This is undeniable.

That the old values will be obtained
 again is problematical, owing to the
 increased competition from other
 wheat-raising countries.

But one thing is certain. The grain
 business of Duluth will steadily in-
 crease in volume. The development of
 the great country to the northwest of
 this city has hardly begun. There are
 thousands upon thousands of acres of
 virgin soil which the plow has never
 touched. It embraces some of the fine-
 st wheat-raising land in the world.

The cultivation of this land will mean
 more wheat for the Duluth market,
 more business for the Duluth board of
 trade.

A NEW TREATY NEEDED.
 The Herald recently quoted from an
 article in the Duluth Scandia in regard
 to American citizens who visited their
 old homes in Sweden and Norway being
 arrested and compelled to perform mili-
 tary service, which they had previ-
 ously evaded by emigrating to this
 country. This was properly condemned
 as a gross outrage, and it urged that
 the state department should take some
 action to protect foreign born citizens
 from such outrageous indignities.

It appears from a circular issued by
 the secretary of state giving a synopsis
 of the treaties between the United
 States and the various foreign coun-
 tries that the treaty with Norway and
 Sweden gives that country the privilege
 of this dealing with American citizens
 who were formerly residents of Sweden
 and Norway. A protest to the conven-
 tion with that country provides that
 former residents of the Scandinavian
 kingdom, although they may have re-
 nounced all allegiance to the king of

Norway and Sweden and taken out
 their full citizenship papers in the
 United States, may be arrested, if they
 visit their relatives in the old country,
 for non-fulfillment of military service
 and may be compelled to perform that
 service or complete any part of it that
 they have evaded by emigrating.

It is almost inconceivable that the
 state department should have arranged
 a treaty which contains such an utter
 lack of protection for American citi-
 zens. It may be impossible for Secre-
 tary Gresham to demand that Ameri-
 cans so arrested in Norway and Sweden
 be released, but he should promptly
 instruct our minister to that country
 to represent to King Oscar the injus-
 tice of such a proceeding and to enter
 into negotiations to secure the fram-
 ing of a new treaty which will fully
 protect American citizens who visit
 their former homes. In the meantime
 it would be advisable for all American
 citizens of Swedish and Norwegian
 birth, who failed to perform military
 service in their old country to remain
 in America.

A MINISTERIAL MAYOR.
 Superior has chosen a minister as
 mayor. Now we will see how a person
 will run a city. Possibly his adminis-
 tration will furnish valuable pointers
 for the mayors of other cities who have
 been struggling along doing the best
 they could with or without the aid and
 assistance of law enforcement agencies
 and crusaders' societies.

We have heard much at various times
 from the pulp about the way in which
 a city's affairs should be conducted and
 how the laws should be enforced to
 make the city morally pure. Now let
 us watch how a real live ministerial
 mayor will conduct himself, how he will
 reform the city by enforcing all the
 laws, no matter what their character,
 without fear or favor. We doubt very
 much whether Mayor Starkweather,
 who is said to be a liberal-minded,
 practical man, with a good fund of
 common sense, will act very different-
 ly from his predecessor in these res-
 pects. His policy undoubtedly will be
 to restrict the evils of which complaint
 is made to as great an extent as pos-
 sible, without wasting his energies up-
 on the impossible feat of crushing
 them out altogether, especially in a
 community where public sentiment
 would not give him the necessary back-
 ing.

For several years, Rev. Mr. Stark-
 weather has been an alderman and he
 has thus gained valuable experience in
 municipal matters. That he will make
 a first-class mayor there is little doubt.
 The people of Superior evidently con-
 sidered him the best man. The hand-
 some vote which he received indicates
 this fact.

CHICAGO'S NEW MAYOR.
 George B. Swift will succeed John P.
 Hopkins as mayor of Chicago. He was
 given a majority of over 40,000. At the
 last election Mr. Swift was the Demo-
 cratic candidate against Mr. Hopkins,
 but the latter secured the office by having
 a majority according to the face of the
 returns, but it is well known that gross
 fraud was perpetrated and the charge
 was freely made that Mr. Swift was
 actually counted out by the Demo-
 cratic judges. Be that as it may, it
 was clearly shown by yesterday's vote
 that Mr. Swift is now the choice of the
 people of Chicago. His opponent was
 Mr. Wenter, a wealthy German brewer,
 who is said to speak four foreign lan-
 guages, and on whose behalf some Demo-
 cratic journals very unwisely tried to
 mass all the so-called foreign vote. The
 result of such a campaign could not fail
 to be disastrous to the side which inau-
 gurated it.

When Carter Harrison was stricken
 down by the hand of an assassin and
 the position of mayor was thus made
 vacant, George B. Swift was chosen by
 the city council to be mayor pro tem.
 Mr. Swift, during the short time he
 filled the mayoralty, gave a good ac-
 count of himself and the fact is guaran-
 teed that the Chicago majority will be
 in excellent hands during the coming
 two years.

There is a strong movement in St.
 Paul to reduce salaries in the various
 city departments. And yet there are
 some people in Duluth who talk about
 raising salaries in the police and fire
 departments. This is not the time to
 increase salaries.

Superior people are now protesting
 that they have no desire to become an-
 nexed to Duluth. It was in Superior
 that the scheme originated. Of course
 the superior is opposed to annexation,
 that settles it. But it is not very cer-
 tain that Duluth would favor it, even if
 Superior was willing. The city debt
 across the bay is a pretty heavy bur-
 den.

SPRING IS COMING.
 The vernal zephyr's primal note
 Has not as yet been heard.
 The robin, after all, is a
 discreet and foxy bird.
 He doesn't risk pneumonia
 by coming back to sing
 before it's time, and yet without
 his tune we know it's Spring.

There is a softness in the air,
 And also in the mud.
 That lifts a man lightly to rejoice,
 And purify his blood.
 The buds are starting on the trees,
 A haze lies on the hills,
 'Tis time to pick out garden seeds,
 And take some new pills.

The noonday sun is getting high,
 Your coat is getting loose,
 Your inside wrinkles are a-re,
 The dust is starting to blow.
 Life shows in everything.
 And baseball betting has begun—
 Hail to thee, gentle Spring.

A certain indication of impure and im-
 poverished blood. If your blood could
 always be rich and pure, full of the
 red corpuscles upon which its vitality
 depends, you would never be weak, or
 nervous; Boils, pimples, scrofula, salt
 rheum, would never trouble you. But
 our mode of living, that in all winter
 in poorly ventilated homes and shops,
 depletes the blood and there is loss of
 appetite, and weakness. Hood's Sarsa-
 parilla is the standard remedy for this
 condition. It purifies, vitalizes and
 enriches the blood, overcomes that
 tired feeling, builds up the nerves and
 gives perfect health. Read this:
 "Our daughter, Blanche, when four years
 of age had a tumor break out on her
 hands and face, which our physician
 pronounced cancer. If the cold air
 reached her face or hands they would
 swell up, look almost purple, and
 headed blisters would form and break,
 and she would be in great pain."
 Discharging a watery fluid, and the burn-
 ing and itching would drive her nearly
 wild. Unless we ceased her little
 hands she would tear patches of skin
 from her face and hands. We tried
 many doctors and many remedies and
 at last gave the case up as hopeless.
 But our daughter Cora tried Hood's
 Sarsaparilla, to cure a scrofulous lump
 near the left breast which caused her
 much pain and after taking 4 bottles it
 disappeared. Blanche, who is now
 eleven, had spent seven years of suffer-
 ing, so I concluded to give her Hood's
 Sarsaparilla. She took 5 bottles and her
 face is smooth and soft as a baby's, the
 color of a rose petal. Her hands are
 soft and white, where four months
 ago they were blue and red and
 swollen nearly like leather. I can-
 not express my gratitude by pen or
 mouth. It was a miracle and our
 friends are surprised. Mrs. ANNA

RECALLED

Bill Legalizing West Duluth Ordinances Recalled By the Senate.

Mr. Van Sant Announces Gov. Marshall's Death and Gibbs Eulogized.

Bill for Taxing Inheritances Being Discussed This Afternoon.

St. Paul, April 4.—There was a disposition to "recall" the bill for the entire proceedings of the senate this morning. The Mellicke bill for the restraint of local police, combinations and trusts—in plain words, to abolish the chamber of commerce at Minneapolis, and perhaps other places—was reported from the house, and the city and county forces immediately clashed to see what committee it should go to.

The country element, led by Senator Severson, wanted the bill to go to the grain and warehouse committee. The Hennepin senators wanted it to go to the judiciary committee. The latter claimed that they could show that the bill was not constitutional, and that the senate would not desire to pass it. The bill went to the grain and warehouse committee.

Later Senator Stevens moved that S. F. 424 be recalled from the house. This is the bill legalizing certain acts in connection with the city of West Duluth. Senator Stevens has discovered that the bill affects Duluth in a way that is undesirable, as it makes Duluth responsible for water works contracts. The bill passed the senate a month ago, and almost, and the innocent-looking title of "Bill for act legalizing and confirming village ordinances and contracts in certain cases." It was introduced by Senator Severson.

Senator Stevens opposed the recall of the bill. He wanted to see the bill passed, and he declared that it added an illegal contract on the city of Duluth. Senator Stevens gave warm and declared that he had fought for bill after bill for Duluth, but there was one thing about Duluth objectionable, and that was an inclination towards reform.

"Duluth never repudiated one dollar of her indebtedness and never will, but she does not desire to stand any illegal contracts," declared Senator Stevens. "This is a contract that any court would declare illegal."

"Did not Duluth change her boundaries so as to escape corporate liability?" asked Senator Stevens. "She did change her boundaries twenty-five years ago or so, but the city of Duluth then and the city of Duluth today are different," replied Senator Stevens. A roll call was demanded on the motion to recall the bill, but Senator Stevens won by a vote of 22 to 19.

The first bill on the calendar table up was S. F. 678, Orrum's bill, which bootblacks and newboys to take out licenses and wear badges. The opposition to the bill is shown by the fact that it received nine senators voted for it and twenty-one against it. Senator Orrum asked and received a declaration, the senate reconsidered the vote and placed the bill on general orders.

Other bills on the calendar table for passage were: S. F. 643, to provide for the orderly observance of Memorial day; S. F. 644, to amend section 239, chapter 66, general statutes, 1878, as amended by chapter 13 of general laws 1881, relative to security where judgment is entered by default; S. F. 652, to provide a speedy hearing in special proceedings instituted upon a writ of habeas corpus and review thereof in the supreme court, by any party feeling aggrieved by the decision and the order made by a district court; a district judge, a court commissioner; H. F. 430, substitute for H. F. Nos. 49 and 50, to provide for the bonding of counties to build court houses—committee on towns and counties; H. F. No. 389, to amend an act entitled "an act to provide for the organization of school districts"; H. F. 135, relating to the descent and distribution of the estates of adopted children.

THE HOUSE.
St. Paul, April 4.—Chaplain McCune appropriately prayed in the house this morning that no words might be said by any member which would afterwards be regretted. Committee reports were adopted as follows:

S. F. 4, Stevens, relating to the taxation of the property of sleeping, drawing room and parlor cars, and other companies and owners; to pass as amended; S. F. 622, Morgan, authorizing any municipal corporation to convey land or any right or interest to the United States and to release any lien thereon; to pass; H. F. 715, Seer, providing for an assistant public examiner and to appropriate money therefor; referred to committee on appropriations; H. F. 735, Seer, to prohibit the use or sale of sectarian instruction and garb, or wearing sectarian garb in any public school building; to pass; H. F. 698, Dahl, fixing salary of clerk of supreme court; substitute for H. F. 629, Gibbs, to suppress food brooms among the masses; to pass; H. F. 629, Lockwood, to amend the law to reorganize the State Agricultural society; to pass; H. F. 716, Mullin, relating to dogs and paying damages caused by them; to pass as amended; S. F. 615, Leach, to erect a veterinary building at the state farm; to pass as amended; S. F. 627, Severson, to reimburse victims of Indian massacres in 1862 in Jackson county; to be postponed; H. F. 221, for the opening of a closed water course in Jackson county; to be postponed.

Speaker Van Sant announced that he had just been informed of the death of ex-Governor William H. Marshall, and on motion of Henry Johns, he appointed Messrs. Johns, Gibbs and Robinson a committee to draw suitable resolutions.

The special order was then taken up, being S. F. 225, and H. F. 634, both concerning the same point. It is for the investment of the permanent school fund in bonds of county, city or village of this state. Under the constitution investments of the school fund are not allowed inside the state and this bill proposes a constitutional convention covering the case. The debate on the question was directed towards a proposed amendment changing the limit of interest to be required. This was finally fixed at 5 per cent and the limit of indebtedness beyond which bonds must not be issued was fixed at 7 per cent. These changes were made in the senate bill and it was then passed as amended by a vote of 70 yeas to no nays.

The joint resolutions on the death of ex-Governor Marshall were reported to the house as having passed the senate, and Mr. Gibbs moved their adoption, directing at the same time eulogy on ex-Governor Marshall, with whom he had been closely associated for a number of years, and of which he was justly proud. He had done much to build up the state, and he was proud to have the honor to adopt the resolutions and they were adopted by a unanimous rising vote.

The following bills on the calendar were passed: S. F. 300, Morgan, relating to the powers of the county courts; S. F. 214, Wyman, relating to teachers' certificates; S. F. 301, Morgan, relating to clerks of courts and sheriffs in certain counties; S. F. 417, Stevens, relating to incorporation of educational institutions; S. F. 418, Miller, relating to organization of new counties.

A recess was then taken until 2 o'clock, when the taxes on inheritance bill was taken up.

BUSINESS IMPROVING.

Operators Would Welcome the Threatened Miners' Strike.

Chicago, April 4.—The Industrial World will tomorrow say: The general business situation is steadily improving, as clearly evidenced by the advances in crude material and staple commodities—iron ore, cotton, coke, pig iron, etc. This, to say the least, is gratifying, as the higher values have stimulated demand all along the line, and in turn is aiding and improving the industrial situation.

The only cloud in sight just now is the strike among the coal miners. In Iowa a large number are already out, and trouble is expected in Pennsylvania and Ohio, which are the main sources of supply for the iron and steel industry. A general strike extending over the states named would be a disaster to the iron and steel industry, and would afford a breathing spell to enable the trade to get rid of the present untimely surplus of stock.

The increased cost of iron ore and Connellville coke has already imparted some degree of strength to the market here, and one furnace company has refused to duplicate orders at prices current a month ago. The organization of iron miners at Cleveland last week is bearing fruit and prices have stiffened up considerably. On the whole the outlook is decidedly more promising.

HARRISON WILLING.

Clarkson Says Positively He Would Accept Presidency.

Chicago, April 4.—Gen. J. S. Clarkson, who is in Chicago, stated positively today that ex-President Harrison is a candidate for the presidency. "Gen. Harrison," he said, "is not an active candidate, perhaps, but he certainly is a 'receptive' candidate."

"Indeed, he is, I think, one of the most prominent, if not the most prominent, men in the country now before the public. As to who will be the party's choice in '96, I am, of course, unable to say. It is very certain that Gen. Harrison will accept the nomination if it is tendered him."

ORE IS BOOMING.

Three Million Tons of Lake Superior Bessemer Sold.

Cleveland, Ohio, April 4.—The Iron Trade Review this week will state: "Some large sales of Lake Superior Bessemer ore have been closed the past week, the total running up to 3,000,000 tons, of which about 1,000,000 tons has been sold in the past day or two. The sales have been made at from 10 to 25 cents above the prices of last year."

A "receptive" Western steel interest is the principal buyer thus far. Demand for finished material is still encouraging, and the buying is promised for the near future and bridge work has been furnishing a large tonnage."

BAD SUBURBAN FIRE.
St. Louis, Mo., April 4.—A large frame building at Wells station, at the city limits, was burned to the ground today and property of the Suburban Railroad company damaged, causing a loss of about \$50,000. The building was two stories high and was occupied by a grocery store and restaurant, the proprietors of which lived up stairs with their families. They had narrow escapes from death.

The sheds and milk cars of the Suburban Railroad company were damaged to the extent of \$2000.

AMOUNT IS INCREASING.
St. Louis, Mo., April 4.—Judge Henry D. Laughlin, who has returned from Chicago, in speaking of the Merchants' elevator matter, says that \$47,000, instead of \$35,000, will cover the amount of grain that mysteriously disappeared while the elevator was under the management of Capt. Slattery. The judge denied emphatically that the Chicago Brake Beam company was in any way interested in the affair.

GENEROUS CHICAGOANS.
Chicago, April 4.—A generous offer of Marshall Field to the Woman's Christian Temperance union is announced. Mr. Field promises \$25,000 with the proviso that \$25,000 more be raised by Jan. 1, 1896. It is intended that the total sum be reported to the committee on the Woman's Temple. Mrs. C. H. McCormick has subscribed \$10,000 and several smaller sums have been added.

INSURGENT SUCCESSSES.
Tampa, Fla., April 4.—The Masso brothers, commanding the insurgents at Holguin, have been reported to have gained a signal victory March 29, defeating the Spanish, killing twenty-six, wounding 132 and capturing twelve. This story is discredited by officials here.

DOUBTFUL

One Report Says Governor William R. Marshall Is Dead In California.

On Strength of This The Legislature Passed Resolutions of Regret.

Another Telegram Says The Report of His Death Is Incorrect.

St. Paul, April 4, 4 p. m.—It is now said that ex-Governor Marshall is not dead, but his condition is reported to be critical.

St. Paul, April 4.—State Librarian C. A. Gilman today received a telegram from Pasadena, Cal., announcing the death in that city early this morning of ex-Governor William R. Marshall, who has been prominent in state affairs ever since there was a state of Minnesota. He went to California several months ago for his health, but has been falling steadily since, and his death was not unexpected.

William R. Marshall was born in Boone county, Mo., Oct. 17, 1825, and was therefore nearly 70 years of age at the time of his death. The father, Joseph M. Marshall, moved to Quincy, Ill., where William received a common school education. When 16 years old he was employed in the lead mines at Galena, and in 1847 he came to this state (then a territory) and was engaged as a surveyor of public lands. In 1849 he started the first general merchandise store in St. Anthony (now Minneapolis) and in the previous year he was a member of the legislature of Wisconsin. In 1849 he was overrulingly elected a member of the first territorial legislature of Minnesota.

He established the first hardware and iron store in Minnesota at St. Paul in 1852, and in the years from 1855 to 1857 he was prominent in banking circles.

He presided at the meeting that organized the Republican party in Minnesota, and in 1858 he was elected a member of congress, but was defeated.

In 1857 he branched out into dairy farming and imported a great deal of fine blooded stock into the state. In 1861 he founded the Daily Press (now the Herald) and in the following year he enlisted in the Seventh Minnesota regiment and became its colonel.

He commanded a brigade at Nashville in December, 1864, and in March, 1865, was brevetted a brigadier-general of volunteers for gallant and meritorious conduct. He was wounded at the siege of Mobile.

From 1865 until 1869 he was governor of Minnesota, and subsequently served as railroad commissioner, and was connected with the State Historical society.

The news of ex-Governor Marshall's death created a profound impression in the legislative chambers. In each of the branches the following was unanimously adopted as a joint resolution and by a rising vote:

Whereas, the painful intelligence has been this morning received from the state of California of the demise of one of Minnesota's most prominent and distinguished pioneers, ex-Governor William R. Marshall, the brave soldier, the wise and sagacious statesman, the worthy and exemplary citizen; therefore,

Resolved, by the senate and house of representatives, that we receive the sad news of the death of our distinguished citizen with profound sorrow.

Resolved, that on the day of the funeral the senate and house adjourn out of respect for the memory of our late ex-governor and that a committee from the senate and one from the house be appointed to attend the funeral.

Resolved, that we convey the surviving members of his family our profound respect and our heartfelt sympathies.

TRAIN ROBBERY.
Rock Island Night Express Held Up in Oklahoma.

Chicago, April 4.—The Rock Island officials at headquarters in this city confirm the report of a train robbery in Oklahoma, and say it occurred at 11:30 last night, twenty rods west of Dover.

Train No. 1 was held up by five mounted men, who ordered the baggage car, the leader being upon a mettlesome grey horse. A posse started from Kingfisher, the next station, in pursuit of the bandits.

PULP MAKERS COMBINE.
Boston, April 4.—An immense combination, the definite form of which has not yet been determined, has been agreed upon by the leading pulp manufacturers of New England. The financial center of the combination is to be that of J. Pierpont Morgan & Co. and the capital involved is something like \$50,000,000.

REPORT INCORRECT.
Hotel Royal, Palm Beach, Fla., April 4.—Reported loss of the yacht Robinson Crusoe is not correct. She is at Key West, at anchor with all well on board.

FETE DE FLUER!

COME AGAIN TOMORROW.

Not a Jam!

Now you expect to hear us repeat the same old worn-out exaggeration, as "The crowds are now surging in the Millinery parlors," or say, "The crush in the Millinery department is on." Why not tell the truth? There is no jam, there is no crush, nobody is surging here. Some two score of ladies are intelligently and conservatively selecting Hats here at this writing. The universal opinion seems to be thoroughly in accord with the facts existing. The Hats are exquisitely beautiful, the diversity of style, the true evidence of superlative skill, and the endlessness of art ideas show coyly at every turn. For such marked appreciation we thank you. You make us proud; not of ourselves, but proud that our efforts meet with such decided recognition from you. Come again tomorrow.

Dress Goods And Silks-

A strong current is pulling this excessive business to our Dress Goods departments. At the top of the page you'll notice the date of the much-looked-for Dress Opening Sale. We know—mark the assertion—we know that from a stylish, value-giving standpoint, we have no competition in Duluth. Watch the papers for full particulars. Monday's the day!

HOWARD & HAYNE.

PERSONAL.

H. L. Mueller left today for Traverse City, Mich., where he has a permanent position as manager of a large dry goods house.
Mayor Lewis, who is in St. Paul today, will be at home as usual tomorrow.
Sterling S. Smith went to Chicago last evening.
C. M. Hill returned from Saginaw today.
G. W. Mason, of Eau Claire, is in the city.
Dr. Brown, of Chicago, is in the city today.
Bakard Hard came up from St. Paul this morning.
Otto E. Greeley, the Minneapolis insurance man, is in the city.
C. J. LeSueur, of Dubuque, Iowa, of the LeSueur Lumber company, which has built a sawmill at West Duluth, is in the city.
Miss Whitner, of Winona, was at the Spalding last evening.
Superintendent F. W. Wiley, of the Northern Pacific, left today for Atlanta City, Ga. His wife and children will visit there for three months and Mr. Wiley will return in a few days.
C. A. Sinclair, of Ashland, was in the city yesterday.
Mrs. William Nesbitt, of Grand Rapids, was at the St. Louis this morning.
W. R. O'Reilly, assistant United States district attorney came up from St. Paul last evening.
John Rossett, chief of inspection in the health department, seems to be pretty well in the grasp of the grippe. His case seems to have a tendency towards pneumonia, and today he was still unable to leave his room.
T. W. Lemieux returned this morning from a ten-day business visit to St. Paul.
J. H. Gracie, a big tea merchant of Dayton, is in the city. He comes here

Result of Gossiping.

A few days ago a family residing near Twenty-third avenue west and Superior street lost a child. Some of the neighbors got to talking as neighbors will, and it was not long until some of them were fully convinced that the death was very sudden, mysterious and suspicious. The matter was reported to the police and Chief Armstrong reported to the coroner. This morning, Mr. Edmund visited the family and made an investigation. He reported that everything seemed all right and that the gossip had unjustly thrown suspicion on an apparently worthy and respectable family.

Exciting Incident Marked the
Opening of a New Town
Today.

Phil Hasselblatt Was Forced
Out of Place at the
Head.

Tom Madden is the Man
Said To Have
Done It.

Town 66-21 was opened for settlement this morning at the local United States land office. Fourteen timber and stone and one homestead and twelve conflicting entries were made.
When the office opened about 100 men were in the hallway. Early in the morning Phil Hasselblatt, a clerk in the local postoffice, got at the head of the line and hung on to the door knob to maintain his position. According to Hasselblatt's story, Tom Madden, the ex-policeman and present back driver, got it into his head that Uncle Sam's employe neither looked well standing at the head of the line nor needed a claim, so he grabbed him by the throat, choked him until he fell, and then he took the knob and then threw Hasselblatt out of the line. As a result he lost his place, a chance to file, and of course, his claim. He contemplates prosecuting Madden for his rough treatment.
Tomorrow town 66-21 will be opened for applications from land seekers, and that will close the work in that line for the present.

THE CITY'S HEALTH.

Dr. Stewart Read a Paper on
This Subject Last Evening.

The Civic society held its last meeting for the season at the high school, and Dr. C. A. Stewart read a paper on the sanitary conditions of the city and the organization having it in charge. In substance Dr. Stewart said:
"The important sanitary problems that confront us are the extension and modification of our water system, extension of public sewers, disposal of garbage, public disinfecting stations and isolating hospitals.
"The head of the present health organization is the health officer, appointed by the council, which has no idea of the requisite qualifications and consequently the office is frequently made a political bonus. The clause of the city charter is so ambiguous that the city council can change the term. The whole essence of efficient sanitation depends upon an honest, capable board of health which medical men are represented, and the health officer should be appointed by the mayor from the medical profession.
"The question of a pure supply of water is of great importance, and to secure that one of the measures must be taken. Either the intake must be extended so that it will not be overtaken by the sewage of the city, or, if the water must be by some means freed from impurities or another source of supply be created. The disposal of garbage on the open ground is also responsible for many sanitary ills."

Cecilian Program.

The Cecilians will meet with Mrs. S. T. Harrison, 2129 East Superior street, tomorrow afternoon at 3 o'clock, and will study the numbers to be played by the Thomas orchestra on April 27. The program is in charge of Miss Margaret McDonald and is as follows:
Paper—"Description of Beethoven's Symphony No. 5."
Illustrated by Mrs. C. H. Clague.
Paper—"St. Francis and His Works."
Illustrated by Dr. A. E. Gerd.
Contraalto song—"Gounod."
Mrs. John Lomax.
Piano solo—"Slavonic Dances."
Mrs. Dvorak.
Paper—"How to Listen to a Fugue."
Miss Julia Donovan.
Piano solo—"Slavonic Dances."
Mrs. Dvorak.
Paper—"Mendelssohn and His Compositions."
Mrs. Whitfield.
Due—"Midsummer Night's Dream."
Mendelssohn.
Paper—"Life and Works of Weber."
Miss Lucie Cullford.
Solo—"Invitation to the Dance."
Mrs. William Harrison.
Contraalto solo—"September."
Charlton.
Miss Donovan.

WHY DID HE DO IT?

C. E. Richardson mutilated and disfigured his person yesterday by shaving off his mustache. A watchful policeman last evening came near running him in as a suspicious character. Some of the boys say that Mr. Richardson took off his mustache so that he would not get Easter egg in it, while others say that the clerk is getting ready to drink back beer with those to whom he issues licenses.

ERNST MEIER RETURNS.

Ernst Meier returned today on the Wisconsin Central from Houston and Galveston, Texas, where he has been expending his energies since he left Duluth. The return to Duluth was made necessary by Mrs. Meier's health and their future home will be in this city.

CAPT. MOORE HOME.

Capt. N. D. Moore arrived this morning from Winnipeg where he was purchasing iron for use in his mining property in British Columbia. He did not intend to come to Duluth, but was summoned because of the serious illness of his niece, Miss McFerran, and daughter of his partner, Robert McFerran. She was taken ill with typhoid fever last Thanksgiving. Her disease resulted and a few days ago a portion of the hip bone was removed. It is not believed she will live more than a few days at most and she is very low today.

Capt. Moore is now engaged in developing mining properties in British Columbia and has been there for several months. He thinks there is great mineral wealth out there and has some fine properties of his own.

MUST HAVE NAMES.

Health Department Wants no
Anonymous Notices.

Health Officer Roth today received the following communication:
"Dear Sir—I desire to call your attention to the following on the rear of the premises of Nos. 112, 115 and 117. There is a large amount of garbage thrown out in ash piles and in barrels and the smell issuing from these rotting potato parings, etc., is anything but healthful. Please have it removed and obliterated. Now that it is a fair sample of a large number of communications this office receives regularly," said the doctor.
"We are glad to have notice of nuisances and nuisances to health but we do think complainants should sign their names. This letter evidently comes from a person of education and prominence, if the writing be any sign, yet it is anonymous. Now we cannot pay attention to complaints to which the makers are unwilling to sign their names. A few lines in The Herald on that point may do some good."

Are Getting Careless.

Bicycle riders are getting just a little bit careless again and should be compelled by ordinance or police regulations to have their machines provided with alarm bells. Tuesday afternoon a 2-year-old son of D. A. Scott was knocked down and run over by a reckless rider and quite seriously injured. The terribly fatal accident of a year ago should not be so soon forgotten.

FLAGS OF ALL NATIONS.

At the Edison Baptist Easter sale Friday morning from 4 to 6 o'clock there will be displayed twenty-six flags of different nations. The boy and girl under 16 years of age who can name these flags correctly will each receive a prize. This contest is subject to the following rules:

Paper must be accompanied by name and age; Flags must be named according to number attached; must state when flag is a merchant or man-of-war; misspelled words will count adversely; neatness of paper will count favorably; paper must be handed in promptly at 6 o'clock or they cannot be counted; bring sharpened lead pencils.

Flags will be furnished at the booth of the dolls of all nations. The boy's prize will be a league baseball of the best in the girls' prize a beautiful story of the "Origin of Easter Eggs," with cover decorated in water colors. The prize is at No. 299 West Superior street.

Wanted, a good delivery horse. Duluth Butter and Egg company.

Smoke Endion cigar. W. A. Foote.

Call at Levin's liquor store next to First National bank, for wine and liquors for medical purposes at reasonable prices.

There will be a meeting of the Father Mathew Total Abstinence society this evening in Catholic Association hall.

The Central Gun club last evening decided to hold its third annual tournament on July 4 and 5 on the grounds at Spirit Lake.

J. S. Clark, treasurer of the Frank Educational company, of Boston, will deliver a lecture in the assembly hall of the Central High school on Saturday, April 6, at 10 o'clock a. m., presenting some phase of art education. Admission will be free. All interested in the subject of drawing and art education are invited to be present.

Four drunks and one vagrant comprised the police court grist this morning.

"Two drunks went to jail, as also did the vagrant, and two drunks paid fines of \$10 and costs."

The Lacrosse club met last evening at Dr. King's office. The grounds committee was granted more time and on Tuesday evening next a conference with the cricket club to consider the question of having joint grounds will be held. The club members are already in practice.

King's Daughters, of the Silver Cross circle, will give an Easter fair at the residence of Mrs. E. W. Merrill, 414 East Third street, on Saturday afternoon from 2:30 to 4 p. m.

Hotel business is picking up and the proprietors now smile more genially than ever. Traveling men are coming in large numbers, and there is every indication of a revival of business.

A musical was given last evening at the First Christian church by the Sunday school. A fine program was presented.

Marriage licenses have been issued to Matt Leander Mattson and Hanna Anderson and to George B. Colwell and Lizzie Davies.

Henry Schuman was this morning appointed guardian of William Schuman, insane.

A contract for the machinery to be used in the new McColligan saw mill at Superior was let today to the E. P. Ains company, of Milwaukee. The machinery is to cost about \$20,000.

EASTER BONNETS.

Beautiful Display of Ladies
Hats at Howard & Hayne's

As the end of the Lenten season of figurative sackcloth and ashes draws near, and the balmy days of spring which should in a well balanced climate follow closely of their coming by forerunners in the shape of such inclement days as this, the feminine mind turns to thoughts of Easter bonnets as naturally as the birds of summer fly northward.
To suitably provide for these spring longings of the feminine population is the ambition of every enterprising mercantile establishment. Being the case, the season it is safe to say that the quality of the building will be tested. The new City band is in constant rehearsal and since the benefit concert given a couple of weeks ago at the Temple has received a large lot of new music.

Notice to the Public.

We have made a purchase of several more for moving household goods, both covered and open. Trucks and parcels to any part of the city 15 to 25 cents. Also the cleanest and cheapest storage house in the city. Goods loaded and shipped.

We are fully equipped for moving and raising buildings, heavy machinery, safes, etc. We have in our employ H. D. Eide, the most experienced man at the head of the lakes, to take charge and look after the moving of buildings. I. FREIMUTH.

It is Only Talk.

The following is an extract from an article which appeared in a St. Louis paper day before yesterday: "In the course of a few months there has been an entirely new line of steamers plying between St. Louis and New Orleans on the Mississippi. The name of the steamer is the whaleback. Last fall an agent for that company visited St. Louis and the result of his visit, with St. Louis steamboat men brought about the movement to at once put on a half dozen of the heaviest of subsequent meetings it was decided to wait awhile, or at least until the opening of spring."

While the idea seems to be a good one nothing has been done toward adopting it, according to Captain Alexander McDougall. He was in St. Louis on some other business last fall and there was some talk about the feasibility of using the whalebacks in river navigation, but it was merely speculation and there was no definite idea of putting the idea in operation.

Grading a Sand Street.

J. D. O'Connell has begun work on his contract for grading Minnesota avenue on Park Point. A distance of about three blocks, at a point near the life saving station. The first is not troubling him at all and the work is progressing rapidly.

Just what benefit is to be derived from grading a street on the Point is unexplained. The contract does not call for any covering of black earth. It is simply a process of leveling the sand. A team can no more draw a load over a graded street of fine sand than it can over one that is not graded at all. But the improvement was petitioned for and there probably would have been a howl if it had not been ordered.

May Start Monday.

The R. R. Richard, lumber company's mill at New Duluth is expected to begin running on Monday next. The ice in the river is nearly all out and the weather continues warm there will be nothing to prevent starting at that time.

Leggers are all getting to drive. Driving on the Middle river beyond the Amnicon will be begun tomorrow or Monday. J. W. McDonald, of Superior, who will drive that river has sent on his outfit and supplies.

INTO NEW QUARTERS.

The Duluth Dry Goods company will move its wholesale establishment into the Minnesota Loan and Trust company's building on West Superior street where the retail store is now located. The moving and counters are now being moved into the new quarters.

Free concert at Pavilion Sunday afternoon.

FORMING A WHIST CLUB.

A whist club is to be organized and there is good reason to believe that it will start out with a large membership. Rooms are to be secured and regular nights for play arranged. Last evening a meeting was held in Dr. Cullum's office and four tables played a team game. The challenge received from Superior is arousing a greater interest in the game than has ever before been displayed. Dr. Cullum, E. C. Jones, Judge Moore and others are taking an active part in organizing a club.

PERSONAL.

H. R. Davis, of Tustin, Wis., writes inquiring the whereabouts of his brother, Charles F. Davis. His father is very sick and anyone knowing where he is will confer a favor by at once notifying J. J. Merritt, West Duluth.

His Judicial Salary Bill Excites Discussion in the House.

Measure is a Beneficial One to Judges in St. Louis County.

Senator Stevens Reads The Herald and Explains His Utterances.

St. Paul, April 6.—In the house this morning there were no committee reports. On motion of Mr. Reeves H. P. 781, for the taxation of mineral ores as other property is taxed, was made a special order for Tuesday morning. The lives reports were changed from Thursday to Friday night. The attendance not being large the calendar was skipped and general orders taken up in committee of the whole. Mr. Gutterston presiding.

Henry Johns' bill, rebating mineral ore royalties, where such ore is smelted in this state, was debated at considerable length. Mr. Johns and Mr. Kendall supported the bill and it was opposed by Mr. Jacobson, P. H. Kelly and Mr. Cant.

Mr. Cant finally called attention to

chapter 33, general laws of 1891; S. P. 535, to legalize official certificates of sale.

Mr. Littleton from the committee on claims, reported H. P. 536, for relief of Thomas Slavin, to pass; H. P. 782, to pay claim of Sarah M. Hiatt, to be postponed; H. P. 783, reimburse Coolidge and Forbes, to be postponed; H. P. 531, for relief of G. M. Hillman, to pass as amended; H. P. 532, to limit expenses in contested elections; to pass.

Mr. Cant moved that the vote by which H. P. 781 was made a special order for Tuesday be reconsidered. He said the action had been taken without due consideration and he believed it should take its usual course. He was opposed to it being considered as a special order.

Mr. Reeves insisted that the bill was very important to the whole state, affecting the iron ore interests and wealth of the state. He stated that the present law taxing iron ore was unconstitutional and maintained that of all measures before the legislature this was one of the most important.

Mr. Cant stated that if the present law was unconstitutional it had not been proved. As to any charge that it was of no effect, he would simply say that the companies are now paying taxes under that law. The bill under discussion had been introduced at a late date. If the bill became a law it would be a loss to the state and there would be no additional taxation while the returns to the state would be greatly reduced. The state cannot hope for any more money from any such law as this and the people of his county were opposed to it.

The motion to reconsider, however, was lost and a recess was then taken until 1 o'clock.

IN THE SENATE.

St. Paul, April 6.—Immediately after the reading of the journal had been dispensed with in the senate this morning Mr. Stevens moved to a question of privilege. He read from an editorial in yesterday's Duluth Herald and asked that the Herald correspondent please take note of what he wished to say. He wished to correct the statement made in the Herald editorial as to his remarks in the senate relative to the West Duluth curfew act.

Mr. Stevens desired it plainly understood that what he said was the opinion of Duluth and that the editorial in the Herald charged that he had a perfect right to regulate in-

Further Grant of \$10,000 for Seeds and Implements Suggested.

St. Paul, April 6.—Senator Wyman, for the special committee on investigation of the condition of the forest fire sufferers, made a report to the senate today. The report was adopted, with the exception of an additional appropriation of \$10,000, which was referred to the finance committee. The report showed that the total cash receipts had been \$157,818.88.

The committee visited the towns of Gladstone, Hinckley, Pokegama, Mora and Milaca, and so far as possible, conferred with the local authorities and relief committees in those towns and also with many of the fire sufferers and all seem to unite in the statement that further help is needed for the people within the burned district. DONE AT NIGHT.
Minnesota Legislators Are Putting in Extra Time.

St. Paul, April 6.—At last night's session the house considered general orders, Mr. Staples presiding and the following bills were recommended for passage:

H. P. 391, Johns, relating to interest on money and usury. H. P. 527, McInnis, relating to limitations of actions, which was amended to make it take effect Jan. 1, 1896. S. P. 414, Morgan, relating to banking and trust corporations. S. P. 55, Barr, establishing section lines. S. P. 485, Barr, to provide public school libraries. S. P. 555, Potgeser, to suppress the sale of unwholesome poultry and game.

H. P. 535, Gibbs, relating to farmers' institutes, appropriating \$12,500 for the same. H. P. 455, Matheson, relating to milk cans, etc. H. P. 461, Martin, to prevent oppressive garnishment. S. P. 555, Yale, to authorize cities to sprinkle their streets, etc. H. P. 523, Furlong, to provide the state fair grounds with water works. H. P. 523, Shell, appropriating money for drainage in Nobles county. The two hay and potatoes inspection bills which were also considered are: H. P. 572, to provide for inspection of hay, etc., and H. P. 617, to provide for inspection of hay, etc. Finally they were referred to Representatives Shell and Douglas to weld into one bill.

Mr. Fitch moved the reconsideration of his bill relating to lower interest of surviving husband and wife, and when the bill had been reconsidered had it laid on the table, that he might call it up for passage when there was a full house. The house then adjourned.

He Seems in a Fair Way to Get His Bill Passed.

Duluth Men Are Down There Fighting It, Tooth and Nail.

Terms of the Obnoxious and Illegal West Duluth Franchise.

Maybe the average man in Duluth is not angry at Bill Merriam and the state legislature. That body is in a fair way to pass the bill legalizing village ordinances, which, of course, will legalize the franchise of the West Duluth Light and Water company. Bill Merriam seems to have the Minnesota legislature under his thumb. He is one of the heavy owners in the West Duluth plant and seems in a fair way to have the people of Duluth under his big grumpy thumb as well.

Not only does the legislature seem bound to give Bill Merriam all he wants to the detriment of the general public in Duluth, but some of the members in-sultingly and unjustly give it out cold that if Duluth does not let Bill Merriam have what he wants, this city and county will not get several bills passed that are much desired.

Mayor Lewis came home yesterday morning all out of patience. City Attorney Morris came up the day before and he was a mighty mad man. He went right back and is there now. Alderman E. F. Howard is down there putting in his best licks against the wrong about to be perpetrated. Alderman Cox will go down today or Monday, and any number of others as well.

TERMS OF THE FRANCHISE.
The franchise was passed April 5, 1890, by the village board of West Duluth. It provides that the village shall rent seventeen hydrants for every mile of mains laid. The first eighty are to be paid for at \$80 each per annum and all in excess of eighty at \$25 per annum. When the population of West Duluth reaches 2,000 or over, the rental shall be reduced to \$60 a year for each hydrant in use. For each hydrant out of repair the company shall forfeit \$10 a week until repaired. These rentals are payable quarterly.

This franchise runs for thirty years. Upon sixty days failure of supply or insufficiency, the franchise shall be liable to forfeiture, barring the "acts of God, a public enemy or unavoidable accident." At the expiration of the 30-year franchise, if a renewal shall be refused, the plant shall be purchased by the city, as provided in the franchise. The franchise was passed especially on the condition and with the reservation that the village have the right to require the plant. After the expiration of twenty years from April 5, 1890, or at intervals of five years thereafter, a notice may be served on the company, and for a year an accurate account shall be kept of the receipts and expenditures. The purchase price shall be a sum of which the net earnings are 5 per cent. For example, if the net earnings are \$10,000 a year, the purchase price must be \$200,000.

DOES NOT RECOGNIZE IT.
Since West Duluth was absorbed by Duluth the common council has not recognized the franchise as legal. The company puts in a hydrant rental of \$400 each quarter, charging at the rate of seventeen to the mile. The council allows only \$288, or at the rate of twelve hydrants to the mile. The city authorities have maintained that the franchise was illegal and have rather hoped that the water company would sue for the unpaid balance. Bill Merriam is too busy to take any chances and he evidently has doubts as to the legality, for two years ago, he got a bill passed legalizing the franchise but the amendment went away with special legislation, for once, knocked out the wily banker. He now is at it with the general bill to legalize certain ordinances of villages. If he wins, it means a loss of \$150,000 to \$200,000 to the city and many favor making a stiff fight at St. Paul for the next few days.

PROPOSAL TO REDUCE.
At one time the water company proposed to reduce the hydrant rental to the basis of twelve to a mile if it would legalize the franchise but the council turned the proposition as the result of opposition to the scheme on the grounds that the purchase price was not stated. The company then made an offer to sell for \$300,000, and an ordinance was drawn up to that effect, but the West Duluth attorney held that the proposed price was excessive, so the ordinance was never introduced. It is mentioned by lawyers of ability who have looked into the matter carefully that the franchise is illegal and invalid because it is not properly drawn and because of irregularities in its passage. Then the city is held to be excessive and the number of hydrants unreasonable, which, some hold, must have a general influence on the validity of the franchise. The company's actions clearly show that it also entertains grave doubts as to the ability of the franchise to hold water.

Alderman Howard returned from St. Paul today. He reports that Bill Merriam seems to have it all his own way with the legislature as to the legalizing of the West Duluth Light and Water company's franchise. There now is, however, some talk of a compromise, about on the basis laid down when the matter came up some months ago and in conformity to the position and terms of the payment of hydrant rentals now held by the council.

6.—A storm of much energy, April
6, from Duluth to Northwest, Missouri, dur-
ing the last twenty-four hours. General
rains have fallen from this storm in the
Central Mississippi valley, the South-
west, and the Red River valley. The
storm in the Rocky Mountain region and
the Canadian Northwest. It was warmest
in Tennessee, with a temperature of
at Knoxville, and coldest in Assiniboia,
with a temperature of 20 at Medicine
Hat, at 4 a. m. today.
Duluth (temperature at 7 a. m. today,
38; maximum yesterday, 47; minimum
yesterday, 28).

ing to northwest winds.

WEST DULUTH HYDRANT BILL.

The senate yesterday refused to re-
call the bill legalizing the ordinance of
the old West Duluth contract containing
the extortionate hydrant contract with
the West Duluth Light and Water com-
pany. As on a previous occasion the
chief supporter of the bill and the most
prominent opponent of the motion to
recall it from the house was Senator
Hiram F. Stevens, a St. Paul attorney,
who boldly admitted that his action
was prompted by the fact that he has
clients who own bonds of the West Du-
luth Light and Water company and are
interested in having this outrageous
contract legalized.

Such a confession should have been
sufficient to have convinced the other
senators that his speech in behalf of
the bill was not entirely in the interest
of his clients, but instead of receding
the attempt of a paid attorney to secure
the legalization of a contract in which
his clients had an interest, a majority
of the senators voted with him to pre-
vent reconsideration of the bill. The
eventual result of the bill, if passed,
was visible throughout the proceed-
ings. He pulled the string and his pup-
pet did his bidding. Even Senator
Stevens, who admitted he is the paid
attorney of men interested in the paid
Duluth contract, voted against recall-
ing the bill. If he had possessed any
sense of decency, any self respect or
any regard for his reputation as a
public man, he would have refrained
entirely from voting upon the question.
Had he been a member of the other
branch of the legislature and made
such an admission he would not have
been permitted to vote. The rules of
the house provide that every member
present shall vote unless excused by
the house, "or unless he is immediately
interested in the question, in which
case he shall not vote." The senate
rules, very conveniently for the attor-
neys who sit in that body, contain no
such provision. Senator Stevens took
advantage of this fact, but it will be
an everlasting disgrace to him that he
did so.

It is a scandalous state of affairs
when senators, who openly and un-
blushingly admit that they are the
paid attorneys of people interested in
a measure under consideration, are
permitted to vote either for or against
that measure. These same senators
triumphantly glibly about the necessity
of circumscribing the powers of city coun-
cils and inserting provisions in city
charters that aldermen interested,
either directly or indirectly, in con-
tracts with the city shall be debarred
from sitting in the council, and that
they shall not vote upon measures in
which they are peculiarly interested.
Yet these senators, who are so solicit-
ous about purity in city councils and
ready to grow eloquent in denunciation
of boodism in municipal bodies, can
rise in the senate and unblushingly
admit that they are there looking after
the interests of private entities instead
of looking after the interests of the
people. Such a condition of things is
scandalous, and it is time that these
men were driven out of the legislature.
A majority of the house committee
has also decided to report this bill fa-
vorably. There is no further hope of
the senators undoing the work which
Bill Merriam and his associates re-
quested them to do. The fight must
be carried into the house. The three
members from this district must put
forth their best efforts to prevent the
passage of this infamous measure. If
they cannot secure the votes of a ma-
jority of the members to defeat the
bill, let them not cease their efforts
until they have exhausted every par-
liamentary tactic to prevent its pas-
sage. The Herald does not approve of
all general thing of filibustering, but
there are times when such tactics seem
absolutely necessary, and if all other

methods fail to defeat this bill,
Messrs. Cant, Smith and McInnis
should not hesitate to filibuster against
it to the fullest extent which the rules
of the house will permit. It is of far
more importance to defeat this bill
than to secure the passage of any other
bill, and the measure of any other
other bills in which Duluth is in-
terested should not cause our members
to yield one inch in this fight. Bill
Merriam and his henchmen in the leg-
islature must be taught that they can-
not trample upon the rights of the peo-
ple of Duluth. Let the common council
take action on Monday night to give
our representatives in the house every
assistance possible. They have a hard
fight ahead of them and will need all
the help they can get.

THE GOOD ROADS BILL.

Senator Cole's bill, providing that the
gross earnings tax be divided among
the counties where the unimproved road
land is located, in proportion to the
number of acres held by each, is now
ready for passage in the senate. This
is the bill which was originally pre-
pared by Mr. Goodell, of Carlton
county, and which seeks to get a por-
tion of the gross earnings tax diverted
to the county containing unimproved
road lands, to be used in the making
and repairing of roads.

The bill has been amended in accord-
ance with suggestions made by Senator
Wyman and others, and the chief ob-
jectionable section has been removed.
This section provided that the distri-
bution should be made annually until
such time as the Anderson bill should
become operative; but the friends of
the Anderson bill objected to having
that measure tied up with Dr. Cole's
bill, and so the fight was made for a
separation. As the bill now reads, the
proposed appropriation is to be made
for two years only, or until such time as
the fate of the Anderson bill can be
settled at the polls and the next legis-
lature can meet. The measure is a good
one and should be passed without fur-
ther delay by both houses. That it
would be passed in such good cannot be
doubted, as several counties would be
placed in a position to improve their
present roads and build others that are
much needed.

DO NOT PAY ONE CENT.

The bill of the West Duluth Light and
water company for hydrant rental for
the past three months, amounting to
\$4300, will come before the common
council next Monday evening. The
council has been paying part of the
company's bill each quarter. In view
of the attempt of the company to secure
the passage of a bill by the legislature
legalizing the extortionate hydrant or-
dinance, the duty of the council is plain.
It should refuse payment of any por-
tion of the company's bill for the past
quarter.

This is the best way to bring the mat-
ter to an issue and to let Bill Merriam
and his associates understand that the
people of Duluth do not propose to
quietly submit to such barefaced robbery.

If Bill Merriam and the others com-
posing the West Duluth Light and water
company want the hydrant rentals for
the past quarter, force them to go
into the courts and fight for it.
The council should not pay one cent
of this bill until the courts have passed
upon its legality.

THE LAKE COMMERCE.

Two millions tons more of registered
tonnage has passed through the Sault
canal than has passed through the Suez
canal during the past eight years. In
the year 1893, 3341 vessels of 7,559,900
tons passed through the Suez canal,
and last year the traffic was about the
same. In 1894, there were 14,491 vessels
of 12,110,266 tons passed through the
Sault Ste. Marie canal. In fifteen years
going through the Sault canal increased
from 1,734,890 to 12,110,266 tons. This is a
tremendous increase and it is worthy
of note that fully 75 percent of this traffic
was by vessels between Duluth and
lower lake ports.

In 1882, the total freight through the
Sault canal amounted to 1,367,741 tons,
while last year it reached 12,110,266
tons. The value of the freight last
year was estimated at \$142,114,502. In
1893 the freight carried was valued at
\$145,426,957, the decrease last year being
due to the decline in the value of wheat
and other items of freight. The statis-
tics show that there has been a
steady decrease in the cost of trans-
portation by the lakes. The cost per
ton per mile for last year has not been
ascertained definitely, but in 1893 it was
only 1.1-10 mills. This reduction in the
cost of transportation by water has
also had the effect of cheapening rail
charges and it is stated that on seven
trunk lines between the North Atlantic
coast and the Mississippi the freight
rate per ton per mile has been cut
from 2.5 cents to 6.25 mills between 1885
and 1893.

There is good reason to believe that
the cost of transportation by the great
lakes will be reduced still further. The
deepening of the harbors and channels
and the opening of the new American
canal at the Sault, permitting vessels
to load to greater capacity, will have
this effect to a considerable degree.

Mr. Hartley, who has just returned
from New York, reports that a great
improvement is visible in business and
unusual circles. The country is now
rapidly recovering from the depression,
and the renewed prosperity which has
begun in the East will not take long to
spread all over the country.

The chairman of the finance commit-
tee of the Connecticut house of repre-
sentatives, a man named Rowan, is re-
cently best and outspoken, and stands
in marked contrast to the numerous
financial oracles with which nearly
every community, Duluth not excepted,
is afflicted. In a recent speech on the
money question Mr. Rowan cheerfully
admitted he knew nothing about it.
"Who does?" he asked. The issue was

silent and Mr. Rowan continued: "Mr.
Speaker, it was left to Wilkins Mear-
ber, one of the heroes in Dicken's mas-
terpiece, 'David Copperfield,' to give to
the world the only safe system of fi-
nance the world has ever had. It was
this: Receipts, \$20 64; expenditures, \$19
64; on the road to fortune. Income,
\$19 64; expenses, \$20 64, on the road to
the poor house. Mr. Speaker, this house
needs to keep Wilkins Mearber's sys-
tem in mind, viz., spend less than your
income."

Louisville policemen who recently
fractured the rules of the department
were condemned to read in detail the
women's edition of the Courier-Journal.
Whether the sentence was a reward or
a punishment is a question which the
local Woman's club is trying to de-
termine.

The small audience that assembled to
hear "Professor" Sims last night show-
ing that interest in the subject of his
lecture has dwindled wonderfully within
a year. This is a pleasing condition of
things. If the people all over the coun-
try will simply stay away from the
meetings held by the Sims and the
other "professors," the occupation of these
fakirs will soon be gone.

No tolls are to be charged on vessels
using the Canadian canal just com-
pleted at Sault Ste. Marie, and there
will be no discrimination against citi-
zens of the United States. Canada
has thus shown her desire to remain
on friendly terms with this country.

The new telephone company to com-
pete with the Bell monopoly will be wel-
comed all over the country, as its ad-
vancement will undoubtedly result in a re-
duction of the present extortionate
charge.

The bill to legalize the West Duluth
hydrant ordinance must be defeated.
But it will take energetic and well-
directed work to defeat it.

Meanwhile let the Duluth delegation
at St. Paul not forget that the bill
abolishing the West Duluth municipal
court must be passed.

"TOO SEVERE A TEST."
"Why do you doubt me?" asked the
maid.
"How can I prove I'm true?"
"How would you like my more display?"
"What would you have me do?"

"There's naught that you can ask of me
I'll do for you."
"Your state and vessel I will be-
just tell me what to do."

"I'm even ready to endure
the time comes
to show my love is true and pure—
Please say what I must do."

"Name any test that you desire,
I'll do it for you."
"I'll raise it if I can't find a devil
and that I swear I'll do."

He took her at her word, and that
he has had cause to rue.

A HARD LOT.

Princeton Union: Members of the leg-

bills, so many of them, and they are
very critical of the bills they do not
get a severe call down for junking and
a round of abuse for a few bills they
do not like. It is a hard lot for a legis-
lator to have to endure.

PRETTY AND ATTRACTIVE WOMEN.

Their Good Looks Not a Secret.
(SPECIAL TO OUR LADY READERS.)
No matter to what country she belongs,
or whether she be black or white, as a
woman she desires to look well.

Women know the influence of beauty
on men; men rarely admire a beautiful
woman, but they do admire a woman in
whom is blended good features and per-
fect health.

There is no secret about a woman's
beauty; it all lies in the care she devotes
to her complexion. The complexion is
the foundation of the form of woman.
Women, the world over, pay homage to
it, and praise its discoverer. Your drug-
gist sells more of it than all other female
medicines.

The flashing eye, elastic step, and bril-
liant complexion are never companions of
a woman's beauty; they are the result of
a woman's health, and health is the dis-
tinctive feature of a woman's beauty.

SOCIETY

One More Week and the Lenten Season Will be no More.

Cecilian Society Studied the Thomas Concert Numbers Yesterday.

Moszkowski Recital by E. Lachmund's Pupils on Monday Evening.

One more week and the Lenten season will be over. Then will the society maiden come forth from the period of reflection or penance and be herself again. As for the society man—well, was he ever known to reflect or repent? No extraordinarily gay season is expected to follow but there will be a number of affairs of more or less consequence.

The assembly party on April 19 at Masonic hall is the most important function which has been decided upon. The winter club has not arranged for any party as yet. On Friday, April 26, the junior party at Hardy school will be given. The annual ball of the Boat club will be given in May and next to the charity ball this is always the most conspicuous event of the year.

Yesterday afternoon the Cecilian society devoted its meeting to the study of the music which the Theodore Thomas orchestra will play in the concert here. The program was in charge of Miss Margaret McDonald. Mrs. C. H. Clague read a paper on "Beethoven's Symphony No. 5," the greatest orchestral composition ever written. Mrs. Stocker illustrated it. Dr. A. E. Gord contributed a paper on "St. Saens and His Work." Mrs. John Lomen told how to listen to a fugue. Other papers were "Mendelssohn and His Compositions," by Mrs. Wilcox, and "Life and Work of Weber," by Miss Lucie Cullyford. Piano numbers were given by Mrs. William Harrison, Mrs. E. B. Ebert, Mrs. L. H. Moer, Miss Tupper and Miss Caldwell sang and Mr. Lachmund played in duets.

On Monday evening a piano recital by Ernest Lachmund's pupils was given at the home of Mr. and Mrs. Ralph N. Marble. The selections were given by Misses Alice Ammerman, Daisy Ebert, St. Clair Nichols, Lily Abrahamson, Dorothy Nichols, Winifred Holmes, Madge Wallack, Mrs. C. W. Baldwin and Mrs. L. H. Moer. Miss Tupper and Miss Caldwell sang and Mr. Lachmund played in duets.

THE U. S. Government officially reports ROYAL Baking Powder superior to all others in leavening strength.

(Bulletin 13, Ag'l Dep't, p. 599.)

It was a Moszkowski musicale and all the numbers were from that distinguished composer's manuscripts. Ernest Lachmund read a short paper on Moszkowski. It was as follows:

"Moszkowski, one of the greatest composers of Poland, was born Aug. 25, 1858. Though his early boyhood days were spent in Poland he received his musical training first at Dresden, and later in that metropolis of art, Berlin. His music is essentially chamber music—that means music written for the parlor. No other composer of our, or any preceding time, has so cleverly combined the popular and classical style as Moszkowski. On that account his works are, taken as a whole, the most acceptable teaching pieces in piano literature, and especially well adapted for the concert. The most remarkable part of the piano compositions of Moszkowski is the uniform evenness of his work, that can only be accounted for, either by an extreme carelessness in overlooking a piece before it is put into the hands of a publisher, or that this man possesses a talent for charming melody and rhythm that is wonderful. I suspect it is the latter. To my mind there is but one other modern piano composer who is his equal or superior in this one respect—and that is Grieg."

"It is strange, and a pity that Moszkowski, possessing such talent, should be such an overlooked composer, for he wrote almost altogether for the piano. His talent is not, like that of Chopin, particularly that of a pianist-composer, though he is always very pianistic in his piano works. Moszkowski lives in Berlin at the present time and is considered one of the foremost piano teachers. His charges are \$5 a lesson and with the splendid royalties he gets from his works it is small wonder that he is well to do."

Money.

There is money available at reasonable, even low, rates of interest for any good mortgage loan. The amount costs no figure. If you want to borrow I will furnish the currency.

The inquiry for houses by tenants and by purchasers is better than for six months past. I have houses to sell and houses to let. Spring winds make fires more frequent and more dangerous. My companies will indemnify you against loss if you will have me write you insurance.

In spite of apparently dull business I have never seen a time when a believer in Duluth had so much reason for his faith, or such good opportunities to make money.

It would be unfortunate for the art of music were this the case, for composers usually do their best work between the ages of 40 and 60. Brahms wrote his third symphony for which he received \$10,000 after his fortieth year; Beethoven's great fifth symphony, the greatest of all orchestral works and the one which Theodore Thomas will play here, and many other composer's best compositions were written at the age of 50. Moszkowski is but 41. In dance forms Moszkowski is at his best, his Spanish dances alone placing him in the front rank of modern composers.

PHYSICIANS NOW ORDER IT.

Paine's Celery Compound the One Spring Remedy That Makes People Well.

Physicians Prescribe It. Use It. and Advise People to Take It in Preference to Anything Else in April and May. Because It Purifies the Blood, Feeds the Brain, and Strengthens the Nerves.

Paine's celery compound is not a patent medicine.

No class of professional men are more conservative, more cautious in giving advice, or more painstaking in finding out the real facts of a case than physicians.

Their recommendations in matters with which they are conversant is trustworthy. When physicians of known repute not only prescribe and use, but also bring home Paine's celery compound for their own families, there can be no doubt of its high standing in the eyes of medical men in general.

This is what busy, successful practitioners are doing these spring days all over the country.

Paine's celery compound is prepared, as they all well know, from the formula of the foremost physician of this century, Professor Edward E. Paine, M. D., LL.D., of Dartmouth medical school.

Among medical men there is an absolute certainty as to just what Paine's celery compound is capable of doing.

The careful record of the vast number of cases where it has made people well has been published in the medical journals of the country.

Paine's celery compound stands today as the one thoroughly authentic remedy for weakness and debility due to malnutrition of the nervous system and impure blood.

This hard working, earnest class of professional men have never been slow in accepting Paine's celery compound.

They declare that it gives the tired body every possible chance to get back to a healthy condition. It cures nervous weakness, heart palpitation, general lack of strength, and all forms of weakness; rests and restores the jaded, fatigued brain and nerves, because it provides for the abnormal waste of these parts by an unusually prompt supply of appropriate nerve food. It purifies the blood as nothing else can.

If every man and woman plagued

with frequent headaches, and every business man made anxious by pain at the base of the brain and neuralgia twinges, would take Paine's celery compound, the world would be lightened of a great deal of misery that ought never to be borne.

The most advanced medical thought of the latter quarter of the nineteenth century has prepared Paine's celery compound to meet and overcome these troubles that are due to ill-fed, ill-regulated nerves and poor, thin blood.

N. N. Leaneard, M. D., of Charleston, Mass., whose portrait appears above, one of the ablest physicians in the Boston district, a man of character and influence, says:

"After using Paine's celery compound for four or five years in my general practice, I can cheerfully recommend it. For catarrh of head or stomach, for instance, it acts like a charm. For women in many cases it is a blessing. For chronic rheumatism it does give relief. Torpid liver, general debility, constipation, pains in stomach and loss of appetite it relieves, and is the best of remedies in general for nervous prostration. I recommend it to many of my patients, believing, as I do, in its real merits. I believe it a public blessing to invalids and, yet, not fully appreciated."

J. C. Flynn, M. D., a well known Michigan physician, is but one of hundreds who prescribe Paine's celery compound because it cures. Writing from Warren in that state he says: "I use the Paine's celery compound freely in my practice as a nerve tonic, blood purifier and general tonic in all debilitated conditions of the system. I find it a fine thing for patients recovering from the grip, especially old people."

Dr. J. H. Hanford, of Reading, Mass., whose writings in the Household, Health and Home, and other journals of national circulation, have endeared him to thousands, says: "I

have used Paine's celery compound personally with much benefit. I prescribe it with excellent results."

J. H. Thomas, M. D., 529 Liberty street, Pittsburg, Pa., says: "For several months I had been suffering from rheumatism. I had taken all the usual remedies with no real benefit. I took one bottle of Paine's celery compound and found myself much improved. The second bottle is nearly gone and I consider myself cured."

W. W. Hubbard, M. D., of Poughkeepsie, N. Y., writes: "I was run down from repeated attacks of the grip, and my stomach, bowels, and kidneys were out of order. I had no strength, energy or ambition to think or act, and was excessively nervous and irritable. After taking the first bottle of Paine's celery compound I felt better. The third bottle restored me to my usual health and strength, and I feel ten years younger than before."

Dr. William Brown, of Fredonia, Kan.: "It has wonderfully improved my general health."

W. Allen Hubbard, M. D., Boston, Mass., writes: "I have prescribed the remedy in cases where the blood was impoverished and the nerves weakened. The results have been so satisfactory that I do not hesitate to endorse Paine's celery compound."

Similar testimonials literally by hundreds might be quoted. The high scientific attainments of A. Liversee, M. D., of Vardley, Pa., have made his statements authority on matters pertaining to health. He gives his personal experience how he was cured of sleeplessness. J. W. Ferguson, M. D., of Thayer, Kan., tells how it has cured him of dyspepsia, etc., etc. The sum total of the testimony of such men as these, as well as the celebrated physicians whose letters have been previously published in these columns, is that Paine's celery compound makes people well!

NEGOTIATIONS ARE OFF.

Proposed New Road Between Duluth and Winnipeg.

It is rumored, says the Winnipeg Free Press, that negotiations between the government and the promoters of the railroad between Winnipeg and Duluth which according to common report have been proceeding, have fallen through for lack of the necessary funds at the other end. It has always been the premier's desire to secure a road from Winnipeg to the water, and if the proposed Southeastern had been in a position to join with the projected Winnipeg and Duluth, there is little doubt but that Messrs. Ross and Graham would have received the assistance

from parliament that they asked for some months ago.

The premier's present scheme is understood to be the practical controlling of a line between Duluth and Winnipeg by the province, since the province would have a first mortgage on the road and stock. One of the features or conditions was that Winnipeg should be made headquarters for the sawmill industry, and cut the lumber taken from the Lake of the Woods district through which the road would pass. However, it is believed that negotiations are off for the present.

NEW POINT

Question of Jurisdiction
Raised in the Madden
Assault Case.

Defendants Claim Offense
Was Committed on Govern-
ment Premises.

As an Outcome Habeas
Corpus Proceedings May
Be Instituted.

Yesterday afternoon the trial of Robert Richmond, Tom Madden and Pat McHugh, charged with assaulting Phil Hasselblad, the mailing clerk at the local post office, the other morning in the rush at the land office, was begun.

A number of witnesses corroborated the testimony of the prosecuting witness to the effect that Madden choked him as he stood by the door and that the two other defendants assisted in the assault.

This morning the defense introduced a lot of witnesses and each defendant took the stand and swore that he never choked the young man. The case was not nearly finished at noon, so an adjournment was taken until 2 p. m. Frank Cutting appeared for the defense and he raised the point of jurisdiction. The case is brought under the city ordinance and Mr. Cutting contended that the city ordinances did not apply to a government building. The case is resolved jurisdiction in cases of crimes committed on government premises, but the ordinance makes the offense of assault only a misdemeanor. Were the assault a crime the defendants would be entitled to their constitutional right to a trial by jury. Judge Edson denied a motion to dismiss on the above grounds. If he finds the defendants guilty Mr. Cutting will ask that sentence be deferred until Monday so that he may test the point by an application to the district court for a writ of habeas corpus.

RED TAPE IN FRANCE.

New York Sun: Puget's nose was the occasion of a discussion on red tape in the French chamber of deputies the other day. Puget was a celebrated sculptor and architect of the time of Louis XIV and his statue adorns the front of the Ecole des Beaux Arts. In January, 1891, a passerby noticed that the statue had lost its nose, and called the attention of the nearest policeman to the fact. The policeman reported it to the commissary and he to the prefect of police. By August the latter had decided that there was no evidence that the nose had been knocked off maliciously; and that the matter concerned the prefect of the Seine. A commission was appointed to decide which department should put the nose on again. It inspected the statue in January, 1892, and reported in December that it could make no recommendation. In 1893 it reached the department of public works, the head of the bureau took the matter up, and it got into the newspapers; the bureau chief was decorated for his zeal; then the report went to one office to another till December, 1894, when it reached the deputies. On Feb. 25, 1895, the Senate attacked the government on the subject. Puget's statue, however, is still without a nose.

Boat Club Annual Meeting and Election of Officers This Week.

Change Made in the Club's Colors From Scarlet to White.

High School and Y. M. C. A. Athletics Will Have Joint Contests.

The work in sports has been a quiet one, exceedingly. The only happening of much interest was the annual meeting of the boat club at the Spaulding, Tuesday night, which was interesting chiefly because of one of those little-mentioned unpleasantnesses, the only unpleasantness of which is that everyone knows that no harm is meant and that the effects will soon be forgotten and buried with other things people do not care to remember.

The election resulted in the choice of the following officers for the boat club: Captain, W. C. Sargent; lieutenant, Dr. King; ensign, George Gibson. The administrative officers, with the exception of the treasurer, were elected by acclamation as follows: President, T. W. Hopper; treasurer, W. P. Linn; secretary, F. H. White; first vice president, J. P. Johnson; second vice president, D. A. Burke; directors, Dr. Frank Lyman, J. C. Hunter and C. S. Davis. F. H. White and W. C. Sargent were appointed members of the executive committee of the Minnesota and Winnipeg Rowing association, which meets at Winnipeg April 16.

The club colors were changed from scarlet to white and the date of the annual meeting set for the first Monday in January.

The Central Gun club held a business meeting Wednesday night and it was decided to hold the third annual tournament July 4 and 5 on the grounds at Spirit Lake, which will be used for all sports during the coming season.

The High School Athletic association has agreed to go in with the Y. M. C. A. on their annual day, May 3, something to everyone's surprise. The arrangements are that the high school boys are to take the gate receipts and pay all expenses, which is satisfactory to all concerned. The association will be fixed for the interschool field day at Spirit Lake, and the high school boys will be the only ones to receive a prize, which will be a silver cup.

The boys of both organizations are working hard on their respective events, and each is putting in his best work. The running events, which are the most interesting, are being fought for by a number of young men, chief among whom are Walter Murphy, Nick Murphy and Henry Steiner.

The boxing bouts have been fixed for April 26 at the Temple, the date having been closed during the week. Entries are coming in so fast that the night will be a very busy one. There are already enough entries in each class to make the exhibition worth while. There is good material among the men who have entered, and it is expected that the exhibition will be a very interesting one. There will be but two men in each class, as the rules of the association require that there be no more than two in each class.

The Y. M. C. A. baseball club will have a banquet Tuesday evening at 6:30 in the Y. M. C. A. hall, after which a temporary organization will be made and a committee appointed to perfect a permanent organization. The question of who shall fill the office of captain, manager, etc., will be discussed. The club has signed eighteen players, including Chapman, who came in early in the week. There are now two batteries at post, Chapman and Fadden and Kennedy and Ruse. Hart, who caught with the Duluths last season, signed late in the week.

The Harriers' club expected to get out this afternoon for a 4-mile run if the weather permitted. If not, the run will be postponed a week.

At Great Eastern hall in West Duluth tonight Pat McHugh, who came down from Fond du Lac last week to get up a wrestling match with any good man, will wrestle Jack Curtis, agreeing to throw him three times in an hour. There will also be boxing bouts between Bob Morrison and Archie Ferguson, Haherstadt and Ben Martin, and St. White and George Curtis.

This afternoon at West Duluth O. J. Simonds is racing his Buckskin gelding against one of the Dribble horses. A small purse is up and a number of side bets add to the interest of the race.

It is reasonably safe to say that curling is ended for this season. To be sure, no man knows what the morrow may bring forth, and the weather may harden up again, but when R. J. MacLeod and Charles McMillan took their respective rinks out to Glen Avon yesterday morning nothing but water confronted them, so MacLeod will probably wear the buttons all summer. It should be understood, however, that The Herald's sporting editor does not risk the paper's reputation as a prophet on that statement; for he undertook to close the season two weeks ago, and curlers played half a dozen games thereafter.

The St. Louis County Fish and Game association will meet next Tuesday night for the purpose of discussing the appointment of a successor to Executive Officer S. E. Fullerton, who has been called higher. The appointment will be made by Fullerton as game warden, he having the power to appoint a special deputy warden without pay.

He will be guided in making his selection, beyond a doubt, by the recommendation of the association. Other matters of interest will come up, including measures for increasing membership and the preparation of a plan of campaign for the summer. The meeting will be an interesting one, and a full attendance is especially desirable.

At the Y. M. C. A. gymnasium last Wednesday night there was an amusing and interesting entertainment, which was an immense success. There were costumes that were original and humorous, athletic exercises that were clever and interesting, and two boxing contests that were spirited and close.

The Lacrosse club may conclude to take joint grounds with the Cricket club, and a meeting to discuss the matter will be held next Tuesday night. The lacrosse players will probably go in with the boat club candidates in their cross-country runs.

The executive committee of the Minnesota and Winnipeg Rowing association will meet at the Spaulding, April 16, and F. H. White and W. C. Sargent will represent the Duluth club at the meeting. They agreed with the association to work for Friday and Saturday, Aug. 3 and 4, as the dates for this summer's regatta and lake races. It is not probable that the Larline's will send anybody from their club.

It is probable that the Larline's will be compelled to give in and come to Minneapolis instead of holding the regatta at Spirit Lake. The Minnesota will attend the national regatta at Duluth, July 1 to 15, and will need time in which to return and get in form for the regatta here, so they are intervals in favor of the Larline's holding the regatta at an earlier date than that named.

It is reported that some club in Minneapolis has ordered a scow and the Duluth club will try to get it at the same time as the one ordered by the Duluth club. The scow is being built by the Duluth club and will be ready for shipment in four weeks. This time may be prolonged somewhat, but it will be here by the middle of May at the latest.

Secretary White of the boat club has written Commodore Case of the University of Wisconsin crew, asking more definite information as to the cost of outfitting the crew here. The Duluth club wishes to close a race for July 1, if the expense be not too great.

The Minnesota have offered to race with Duluth and the University of Wisconsin. If the race can come off a few days before the Fourth and if the full set of their scow and crew with the University of Wisconsin. They will not be able to come up the Fourth, as St. Paul expects to have a little regatta all by herself on that day.

The Duluth boat club has never been in better condition than at present, and never has there been so much interest manifested so early in the season. The club is in excellent condition in every respect, and not only are its finances good and its membership large, but it has a number of strong rowers from which to select its crews for this season. There are about nineteen rowers in the club, and they are all working in a harmonious way that will best secure perfection.

Thursday night fourteen candidates for Dr. King and George Gibson got out and took a long run on the boulevard and these runs will be continued twice or three a week in addition to the gymnasium work. The club is expected to take the run to Lester Park and back if the weather permitted.

The boat club has entered twenty-four new members since Feb. 1.

The boat club employees are at work repairing and painting the pleasure boats at the boat house, and W. C. Sargent is looking up the needs of the club in the way of new boats. Some will probably be ordered, but the number has not been determined.

It now seems doubtful whether the Larline club, of Minneapolis, will be present at the annual meeting, and it is evidence this summer. Minneapolis will have at least a four-oared crew, however, as the Larline club has an Excelsior composed of William and James Louden, J. E. Christian and A. J. Pegler.

The crew is said to be a strong one. The Louden's were reckoned among the strongest members of the Larline club last year.

Capt. Lyman's report of the work of the crew for the year presented at the meeting of the boat club Tuesday is an interesting document, and it is expected that it may be of interest to the public. He says: "The early opening of the lake and propitious weather gave more than the usual time for rowing. The show was marked by a record in the number of miles rowed over the previous year. The four rowing three times as many. This was due to the fact that a second four was in training a considerable time. The actual number of miles rowed was 250. The other boats showed nearly the same increase, single shells, 22 miles, double shells 21 miles, working boats 22 miles. Races were arranged between the two fours and the result was unsatisfactory; a broken oar in the second four prevented the first race, and their boat was swamped in the second."

The club sent a four and a double to Lake Minnetonka to take part in the Minnesota and Winnipeg regatta. The four competed in one race, probably the most closely contested ever rowed at that place. The most notable features of the race were the straight rowing of the Larline's and the gameness of the Winnipeg crew, with more attention to leg work than the Larline's.

An inventory of club property shows boats valued at \$247, oars at \$18, furniture and fixtures including gymnasium outfit \$30.75, a total of \$395.75. The gymnasium opened in the Torrey building this winter has developed considerable interest, men training in these branches which especially adapt one to rowing."

Spaulding's Official Base Ball Guide for 1935 is out. The Guide is edited by the veteran Henry Chadwick, and is the most valuable statistical book and year book of the game. This year's book is larger than ever, and contains twenty-one half-ton pictures of the best players in the game, by country. The new rules are published in full. This year's Guide should be in the hands of all baseball fans.

When the wind is out of the northeast a good deal of attention is being paid to wheeling, and this sport promises to be popular than ever this year. On account of the early season many factors are pressed for time, and those who have been waiting are compelled to wait. One feature of this season's wheeling is the number of female cyclists that are crowding in. Another is the possibility of saving the mark-bloomers, which a number of during young women are threatening to afflict us with. The beauty-obliterating blower will surely be seen on the streets this summer, though the feminine mind is divided on the advisability of wearing these caricatures of trousers.

JACK TARS

Inspection of the United States Man of War Chicago at Gotham.

Naval Custom Not at all Relished by the Common Sailors.

Clearing for Action, Handling the Big Guns and Repelling Boarders.

The first day of the man-of-war Chicago's inspection before she goes out of commission took place yesterday, says the New York Sun. On Monday afternoon she left her anchorage off Tompkinsville and steamed up the North river until she off Fortieth street. She came up full speed, and when her engines stopped one anchor was let go on the main deck were the whole crew and ninety rathoms of chain with it. Then she was allowed to drift back with the ebb tide until only forty-five fathoms of chain was out, when another anchor was let go with forty-five fathoms of chain. Both of these chains passed through the water so that as she swung with the tide she took up no more room than her own length.

Inspection by a government board is not a very pleasing experience, as it involves a lot of hard work, and yesterday on the Chicago was no exception. The early hours of the morning were occupied in putting the finishing touches to the ship's appearance. The deck was scrubbed and polished, and the last touches were given to the bright metal work, the last rails to the great gun barrels. The decks were scrubbed and polished, and the last touches were given to the bright metal work, the last rails to the great gun barrels. The decks were scrubbed and polished, and the last touches were given to the bright metal work, the last rails to the great gun barrels.

About 9:30 o'clock the shrill whistle of the boatswain's call came from the mainmast, and the ship's launch along with the inspection board, the board made up of the following: Commodore T. O. Selfridge, president of the board; Capt. Schley, Commander R. S. Bradford, Lieutenant Commander Schroeder, Lieut. S. A. Stanton, Medical Director H. Van Keyten, Chief Engineer R. W. Mulligan, and Maj. Bell. No time was lost in giving the hour of the day or talking about the weather, but the members of the board went to work as they enjoyed it. Waiting for them on the main deck were the whole crew, spruce and span, with their kits, long blue clothing done up in neat rolls. The regulations say just how these rolls are to be rolled, and a part of the board went to work to try and find some unfortunate who was lacking. Of course they didn't, for the lads were on their mettle, and even the greenest of them had learned how to stow his kit in the long crates on the European station, and they were thoroughly informed of all the changes that have lately been made in the regulations and had the board went below to inspect the ship. They peered around the quarters of the officers and men, examined the water-tight compartments, the boilers, engines, bunkers, magazines, the woodwork, and the metal work, and found everything in the best of order. They went around in dark corners to see if there was any dirt there, stalked into the galley, overhauled the pantries like New England housekeepers, for on a man-of-war cleanliness counts for more than gold.

Then began the really hard work of the day. The order to clear the ship for action was given, the long roll for action, the boat's whistle sounded, and from the bow of the ship the crew came tumbling out. The officers shouted their orders, the whistle kept up its continual shrieking, and the ship that a couple of minutes before had been the plume of neatness became a scene of what seemed indescribable confusion. Tompkins and yards came thundering down to the deck; boats, davits, everything movable that wasn't needed in fighting the ship and from which murderous splinters could fly was sent below, way down in the hold below the water line.

Magazines were opened, the great guns swung around for action, shot and shell piled up around them, the tops manned, every small gun ready with its crew to hurl a deluge of missiles of all shapes and sizes, rifles, pistols, and in thirty-three minutes the Chicago, grim and stern, not at all like the beautiful ship of a little before, lay at anchor ready to blow an adversary off the face of the waters, or get blown off herself. The gun crews, stripped to the waist, with their knotty muscles standing out in high relief, waited for the order to begin the fighting.

Then came the drill at the great guns. The huge 8-inch and the formidable 6-inch rifles were elevated, depressed, concentrated, and put through all the maneuvers possible in actual battle, but fortunately for the nerves of the residents on the adjacent banks of the river they were not fired.

Hardly had the drill had time to catch their breath and roll their quids into the other cheek when the order was given to repeat the drill. The enemy had got alongside, in spite of the Chicago's murderous fire, and was swarming over the bows. The men in the tops poured down a murderous fire with rifles and Maxims and Gatling guns, but the enemy turned back and fled as fast as their imaginary legs could carry them. The ship was swarmed after the action was over, the ship was put into condition, a hard, tiresome

job, but one the men knew how to do, and in a short time the Chicago was once more the trim, gallant craft that won so much admiration on the other side of the ocean. But it was fated to be an eventful day. Before the old, grizzled Jack on the forecastle had a chance to take a fresh chew the ship's bell began to ring violently. The alarm sounded to quarters. It was the alarm of fire. In a trice long lines of hose were laid, men hurried around with extinguishers on their backs, the "sandwiches" with their hammocks, were ready for work. Men were stationed to cut away wood work, sentinels were posted prepared to flood the magazines, and then it was found that it was a false alarm.

Then came a lull in the proceedings, and from the galley came a fragrant, appetizing smell, most grateful to the hungry men. After dinner it was decided that it was necessary to attack a distant point, so far that it would take several days to do it, and there was more loading and unloading. The boats were lowered away and provisioned for several days. Water, beef, beans, cartridges, rifles, guns and last of all, the tools to repair damages were stowed away in them. Then the men piled up their hammocks, and it seemed as if they were about to sink under their loads. Varied colored flags fluttered from the mainmast of the big ship, the sentinels took the boats in tow, and away they started. But they didn't go far, for some more flags fluttered from the Chicago, and they came back again and were hauled on board.

FAREWELL, SAIL, DRILL. Then came a drill, a rather sad one in some ways for the old tars, who still have a love for the stately salutes of the past and can't overcome their prejudice against the modern day battles. It was a sail drill, the last one that will ever be had on the Chicago, for her masts and yards are to go, and shortly, snugly fighting tops will be substituted. The sailors scampered about, lay out on the big yards, and sentinels, with all sails set, was tugging at her anchors, driven by the smart breeze that was blowing up the river. It wasn't much fun up there for the wind blew keen and cold.

Again the boatswain's whistle sounded. The executive, brass speaking trumpet in hand, shouted his orders, and the decks gradually came down until the ship was under close-reefed topsails. Then the sails were furled, the yards squared, and the men wondered what the next move would be. They didn't know to find out. A luckless man, in a moment of carelessness, fell overboard. There was another hurry and scurry, a man, the cutter was lowered away, and under the powerful strokes of six oars the boat was towed to the shore. The man was saved and the cutter was hoisted on board again.

The board of inspection retired to the captain's cabin and talked among themselves about the weather, the condition of the ship, the crew, and some of them came ashore. Then all hands were piped to supper. Soon after the supper the bugle trilled, and the great striped flag, the stern came down. And as the last echoes of the gun died away one of the apprentices who was completing his first voyage turned to an old salt, and said: "Say, who told me inspection was a snap?"

JACK TARS

Inspection of the United States Man of War Chicago at Gotham.

Naval Custom Not at all Relished by the Common Sailors.

Clearing for Action, Handling the Big Guns and Repelling Boarders.

The first day of the man-of-war Chicago's inspection before she goes out of commission took place yesterday, says the New York Sun. On Monday afternoon she left her anchorage off Tompkinsville and steamed up the North river until she off Fortieth street. She came up full speed, and when her engines stopped one anchor was let go on the main deck were the whole crew and ninety rathoms of chain with it. Then she was allowed to drift back with the ebb tide until only forty-five fathoms of chain was out, when another anchor was let go with forty-five fathoms of chain. Both of these chains passed through the water so that as she swung with the tide she took up no more room than her own length.

Inspection by a government board is not a very pleasing experience, as it involves a lot of hard work, and yesterday on the Chicago was no exception. The early hours of the morning were occupied in putting the finishing touches to the ship's appearance. The deck was scrubbed and polished, and the last touches were given to the bright metal work, the last rails to the great gun barrels. The decks were scrubbed and polished, and the last touches were given to the bright metal work, the last rails to the great gun barrels.

About 9:30 o'clock the shrill whistle of the boatswain's call came from the mainmast, and the ship's launch along with the inspection board, the board made up of the following: Commodore T. O. Selfridge, president of the board; Capt. Schley, Commander R. S. Bradford, Lieutenant Commander Schroeder, Lieut. S. A. Stanton, Medical Director H. Van Keyten, Chief Engineer R. W. Mulligan, and Maj. Bell. No time was lost in giving the hour of the day or talking about the weather, but the members of the board went to work as they enjoyed it. Waiting for them on the main deck were the whole crew, spruce and span, with their kits, long blue clothing done up in neat rolls. The regulations say just how these rolls are to be rolled, and a part of the board went to work to try and find some unfortunate who was lacking. Of course they didn't, for the lads were on their mettle, and even the greenest of them had learned how to stow his kit in the long crates on the European station, and they were thoroughly informed of all the changes that have lately been made in the regulations and had the board went below to inspect the ship. They peered around the quarters of the officers and men, examined the water-tight compartments, the boilers, engines, bunkers, magazines, the woodwork, and the metal work, and found everything in the best of order. They went around in dark corners to see if there was any dirt there, stalked into the galley, overhauled the pantries like New England housekeepers, for on a man-of-war cleanliness counts for more than gold.

Then began the really hard work of the day. The order to clear the ship for action was given, the long roll for action, the boat's whistle sounded, and from the bow of the ship the crew came tumbling out. The officers shouted their orders, the whistle kept up its continual shrieking, and the ship that a couple of minutes before had been the plume of neatness became a scene of what seemed indescribable confusion. Tompkins and yards came thundering down to the deck; boats, davits, everything movable that wasn't needed in fighting the ship and from which murderous splinters could fly was sent below, way down in the hold below the water line.

Magazines were opened, the great guns swung around for action, shot and shell piled up around them, the tops manned, every small gun ready with its crew to hurl a deluge of missiles of all shapes and sizes, rifles, pistols, and in thirty-three minutes the Chicago, grim and stern, not at all like the beautiful ship of a little before, lay at anchor ready to blow an adversary off the face of the waters, or get blown off herself. The gun crews, stripped to the waist, with their knotty muscles standing out in high relief, waited for the order to begin the fighting.

Then came the drill at the great guns. The huge 8-inch and the formidable 6-inch rifles were elevated, depressed, concentrated, and put through all the maneuvers possible in actual battle, but fortunately for the nerves of the residents on the adjacent banks of the river they were not fired.

Hardly had the drill had time to catch their breath and roll their quids into the other cheek when the order was given to repeat the drill. The enemy had got alongside, in spite of the Chicago's murderous fire, and was swarming over the bows. The men in the tops poured down a murderous fire with rifles and Maxims and Gatling guns, but the enemy turned back and fled as fast as their imaginary legs could carry them. The ship was swarmed after the action was over, the ship was put into condition, a hard, tiresome

job, but one the men

COOPERS

The Duluth Coopers Believe They Will Soon be Making Barrels Again.

New York's Central Labor Union Had a Discussion on Art.

Twenty Thousand Shoemakers in England Strike for Higher Wages.

The Duluth Federated Trades assembly meets on the second and fourth Fridays of each month. The Friday of this week being the first one of the month, no meeting, of course, was held. The regular meeting will be held next Friday. That will make three weeks between the last meeting and the next one and the effect, no doubt, will be to pile up quite a lot of business for next Friday night.

There is that in the air which leads the Duluth coopers to believe that they will be making barrels in Duluth again before long. At the present time about all the members of the Duluth coopers' union are out of employment as the result of barrel consumers refusing to patronize Duluth cooper shops and sending away for barrels.

One thing that hurt Duluth coopers was the report and impression that got around to the effect that they were not skilled and competent workmen. That mistake has been corrected and the fact demonstrated that something besides inferior work—inferior material, to tell the truth—played a leading part in the closing of the Duluth cooper shops. The journeymen coopers in Duluth are equal to any followers of that trade in the whole country. All they ask is good material, proper facilities for using it and a chance to work.

Some time ago, the matter of patronage of local cooper shops was brought before the chamber of commerce. A long report was read on the reason why the Imperial mill has been sending out of the city its barrels and other features attended the matter but a report was made that the Duluth coopers were taking no pains to patronize home industries themselves, so the chamber grew restless and the Duluth coopers were taken to task for not employment. That report has been traced to H. Zerkel and he has made a written statement that there is no foundation for the report and that the Duluth coopers have been refused to drink Duluth beer, as they were charged. Of course the coopers feel vindicated.

The Herald acknowledges the receipt of a very tasty and neatly printed invitation, bearing the union label, to the ninth anniversary ball to be given by the Duluth Typographical union at Odd Fellows' hall on Lake avenue north, Friday evening April 19. Supper will be served at the Tremont hotel, and Trautvetter's orchestra will furnish the music for the evening. Tickets will only cost \$1, and no one will be allowed to "pass" his way into the precincts of pleasure.

The regular monthly meeting of the Typographical union will be held tomorrow. There will be one or two items of business of particular importance, but otherwise the meeting probably will not be an unusual one in any respect. The advent of type-setting machines has let out a few of the boys and several long faces undoubtedly will be seen, but the new conditions are being received philosophically, in an excellent spirit, and the unfortunate ones will either seek a new vocation or to the machines or other employment in other lines.

MILK IN THE COCONUT.
Present Status of Coke Region Affairs Reveals It.

Those members of labor organizations who are at a loss to understand why H. C. Frick has voluntarily raised the wages of his coke men to 50 per cent, will learn the reason and know that Frick is not the before the summer leaves grow heavy with the burden of the future of the other operators have followed the example set and made the same advance. But there are others who can't do it and complete their contracts, and these are the following: Frick is a for. Two months ago these operators—among whom is W. A. Frick—agreed to follow to follow to Frick and join the Carnegie combine—look on as a strike. Frick's price of coke at Connellsville has gone up to \$1.25 per ton. The only salvation for these operators lies in the clause in the contracts invalidating them in case of a strike or a violation of Providence. Frick has made the strike certain, for the operators can better afford to let their men strike and permit their plants to lie idle than to pay so much more for the production of their coke than they get for it under their contracts.

When these contracts are lost to the anti-combine operators and they have a strike on their hands of such character as this will undoubtedly prove, Frick will be sure of the contracts at his own figure, for the coke consumers have contracts of their own which will undoubtedly result in more destruction than has ever occurred in the coke region. The result is a continual warfare between the miners whose employers refuse to grant the advance in rates in order to make the rate uniform throughout the region and the employers who get up wages tomorrow. The slaves will pillage and riot, and the strike will be a new one. It is inevitable, just as they have done many times before, and now the blood, sweat and loss and misery and woe.

LABOR AND ART.
A Protest Against Senator Mullin's Female Person Bill.

The nude in art, living pictures, and tights were discussed by the art critics of the Central Labor union yesterday, says the New York Sun. The discussion was started by Delegate McCarthy, the Photo-Engraver union, who asked the C. L. U. to protest against Senator Mullin's bill prohibiting tights, posing

WHY?

WHY, in the Springtime, do so many have that drowsy, lifeless feeling?

WHY is there so much backache, neuralgia and rheumatism?

WHY do scrofulous taints eruptions and erysipelas show themselves?

WHY not admit the truth, which is, that kidney poison is in the blood?

WHY, then, not put the blood in pure condition by curing the kidneys?

WHY not today resort to that great remedy, Warner's Safe Cure, which is the only known specific for these troubles?

WHY not, in a word, use the best remedy obtainable for banishing disease and restoring health and happiness?

In the nude or the publication of pictures of nude or semi-nude "female personages" is a violation of the law.

"This bill," said McCarthy, "if passed would injure not only the coryphæus, but the whole country. It would injure the artists, the photographers, the photo-engravers, and, in fact, all ornamental and artistic trades."

"The first part of the bill would kill it," said the delegate of the Actors' Protective union. "From time immemorial tragedy, grand opera and tights have gone together."

for higher wages or for fewer hours of labor, effectively exposing the demand for death for want of employment. When thousands of workmen voluntarily remain idle for weeks at a time they cannot be said to be in a state of utter destitution, and the fact that their employers are forced to concede their demands, even partially, proves that there is a good market for their labor.

FEWER UNEMPLOYED.
American Wool and Cotton Reporter: After a thorough investigation your representative has ascertained that there are fifty-three sets of woolen machinery idle in Worcester county at the present time, compared with 422 sets of woolen machinery idle in October, 1893, and 104 sets February, 1894. In October, 1893, 10,000 operatives of the woolen mills in the county were out of employment, while in February, 1894, 2,500 hands were idle. The idle plants in the county today, inuring full time, would give employment to 110,000 persons, who would earn about \$47,000 a month.

A SUGGESTION.
The following from the Detroit Free Press contains such an excellent suggestion that we give it circulation with the hope that it may induce some one who is in a position to do so to brighten the life of a shut-in sister by giving her a bit of God's blessed sunlight and fresh air. "Just today at 5."

"The lady in her elegant Victoria drove up to the great dry goods store, and, stopping deliberately, she walked into the busy place. Approaching a weary looking girl at one of the counters she said, 'Just today at 5.'"

"What time do you get off duty?" "Usually at 6 o'clock," replied the fatigued girl, "but today at 5."

"Don't you get very tired working so long?" "Yes, madam, but I must work or starve."

"Well, will you let me take you for a drive in my car, after you are through today? I'm sure it will do you good."

"The girl, knowing the wealth and social position of the lady, blushed with pleasure, and she was only too glad to accept the invitation so politely made."

"Imagine Rosa and in a Mother Hubbard!" he said.
